## CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (this “report”) of SoundHound AI, Inc. (“we,” “us,” “our,” “SoundHound,” or the “Company”) contains “forward-looking statements” (as defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended) that reflect our current expectations and views of future events. The forward-looking statements are contained principally in the section of this report entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” Readers are cautioned that significant known and unknown risks, uncertainties and other important factors (including those over which we may have no control and others listed in this report and in the “Risk Factors” section of our annual report on Form 10-K, which was filed with the Securities and Exchange Commission on March 28, 2023 (the “Form 10-K”)) may cause our actual results, performance or achievements to be materially different from those expressed or implied by the forward-looking statements. You can identify some of these forward-looking statements by words or phrases such as “may,” “will,” “expect,” “anticipate,” “aim,” “estimate,” “intend,” “plan,” “believe,” “is/are likely to,” “potential,” “continue” or other similar expressions. We have based these forward-looking statements largely on our current expectations and projections about future events that we believe may affect our financial condition, results of operations, business strategy and financial needs. These forward-looking statements include statements relating to:

- execution of our business strategy, including launching new product offerings and expanding information and technology capabilities, particularly following our recent restructuring efforts;
- our market opportunity and our ability to acquire new customers and retain existing customers;
- the timing and impact of our growth initiatives on our future financial performance;
- our ability to protect intellectual property and trade secrets;
- our ability to obtain additional capital, as necessary, including equity or debt financing, on terms that are acceptable to us, if at all, particularly in light of inflationary pressures and resulting increases in the cost of borrowing;
- changes in applicable laws or regulations and extensive and evolving government regulations that impact our operations and business;
- the ability to attract or maintain a qualified workforce, particularly following our recent restructuring efforts;
- level of product service failures that could lead our customers to use competitors’ services;
- investigations, claims, disputes, enforcement actions, litigation and/or other regulatory or legal proceedings, including with respect to our AI technology;
- risks relating to uncertainty of our estimates of market opportunity and forecasts of market growth;
- the ability to maintain the listing of our Class A Common Stock on the Nasdaq Global Market;
- the possibility that we may be adversely affected by other economic, business, and/or competitive factors; and
- other risks and uncertainties described under the section titled “Risk Factors” of our Form 10-K.

These forward-looking statements involve numerous and significant risks and uncertainties. Although we believe that our expectations expressed in these forward-looking statements are reasonable, our expectations may later be found to be incorrect. Our actual results of operations or the results of other matters that we anticipate herein could be materially different from our expectations. Important risks and factors that could cause our actual results to be materially different from our expectations are generally set forth in the “Management’s Discussion and Analysis of Financial Condition and Results of Operation,” section contain in this report and in the “Business,” “Risk Factors” and other sections of the Form 10-K. You should thoroughly read this report and the documents that we refer to with the understanding that our actual future results may be materially different from, and worse than, what we expect. We qualify all of our forward-looking statements by these cautionary statements.

[Table of Contents](#)

The forward-looking statements made in this report relate only to events or information as of the date of this report. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. You should read this report completely and with the understanding that our actual future results may be materially different from what we expect.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
*(Unaudited)*

**NOTE 1. ORGANIZATION****Nature of Operations**

SoundHound AI, Inc. (“we,” “us,” “our,” “SoundHound” or the “Company”) turns sound into understanding and actionable meaning. SoundHound’s technology applications enable humans to interact with the things around them in the same way they interact with each other: by speaking naturally to mobile phones, cars, televisions, music speakers, coffee machines, and every other part of the emerging “connected” world. SoundHound’s voice AI platform enables product creators to develop their own voice interfaces with their customers. The SoundHound Chat AI voice assistant allows businesses and brands to provide a next-generation voice experience for their users, seamlessly integrating Generative AI and a mix of real-time information domains. Houndify is an open-access platform that allows developers to leverage SoundHound’s Voice AI technology. We have developed a range of proprietary technologies on our voice AI platform, including Speech-to-Meaning, Deep Meaning Understanding, Collective AI, Dynamic Interaction and SoundHound Chat AI. The SoundHound music app allows customers to identify and play songs by singing or humming into the smartphone’s microphone, or by identifying the sound playing in the background from external sources. We also provide Edge+Cloud connectivity solutions that allow brands to optimize their voice-enabled products and devices with options ranging from fully-embedded to exclusively cloud-connected.

On April 26, 2022 (the “Closing Date”), pursuant to a merger agreement dated as of November 15, 2021 by and among Archimedes Tech SPAC Partners Co. (“ATSP”), ATSPC Merger Sub, Inc. and SoundHound, Inc. (“Legacy SoundHound”), the parties consummated the merger of ATSPC Merger Sub, Inc. with and into Legacy SoundHound, with Legacy SoundHound continuing as the surviving corporation (the “Merger”), as well as the other transactions contemplated by the Merger Agreement (the Merger and such other transactions, the “Business Combination”). In connection with the closing (the “Closing”) of the Business Combination, Legacy SoundHound became a wholly owned subsidiary of ATSP and ATSP changed its name to SoundHound AI, Inc., and all of Legacy SoundHound common stock (“Legacy SoundHound Common Stock”) and Legacy SoundHound redeemable convertible preferred stock (“Legacy SoundHound Preferred Stock”) automatically converted into shares of the Company’s Class A common stock, par value of \$0.0001 per share (the “Class A Common Stock”), and the Company’s Class B common stock, par value of \$0.0001 per share (the “Class B Common Stock”, and collectively with the Class A Common Stock, the “common stock”). The Company’s Class A Common Stock and certain of the Company’s warrants commenced trading on the Nasdaq Global Market (“Nasdaq”) under the symbols “SOUN” and “SOUNW,” respectively, on April 28, 2022. Refer to Note 3 for more information on the Business Combination.

Legacy SoundHound was determined to be the accounting acquirer in the Business Combination based on the following facts:

- Former Legacy SoundHound stockholders have a controlling voting interest in the Company;
- The Company’s board of directors immediately after the closing of the Business Combination was comprised of five board members, primarily from the board of directors of Legacy SoundHound; and
- Legacy SoundHound’s management continues to hold executive management roles for the Company following the Business Combination and are responsible for the day-to-day operations.

Accordingly, for accounting purposes, the Business Combination was treated as the equivalent of Legacy SoundHound issuing stock for the net assets of ATSP, accompanied by a reverse recapitalization. The primary asset acquired from ATSP was related to the cash amounts that were assumed. Separately, the Company also assumed certain warrants that were deemed to be equity upon Closing of the Business Combination. No goodwill or other intangible assets were recorded as a result of the Business Combination.

While ATSP was the legal acquirer in the Business Combination, because Legacy SoundHound was deemed the accounting acquirer, the historical financial statements of Legacy SoundHound became the historical financial statements of the combined company upon the consummation of the Business Combination. As a result, the financial statements

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

included in this report reflect (i) the historical operating results of Legacy SoundHound prior to the Business Combination; (ii) the combined results of the Company and Legacy SoundHound following the Closing of the Business Combination; (iii) the assets and liabilities of Legacy SoundHound at their historical cost; and (iv) the Company's equity structure for all periods presented.

In accordance with guidance applicable to recapitalization transactions, the equity structure has been retroactively restated in all comparative periods up to the Closing Date, to reflect the number of shares of the Company's Class A Common Stock and Class B Common Stock issued to Legacy SoundHound Common Stockholders and Legacy SoundHound Preferred Stockholders in connection with the Business Combination. As such, the shares and corresponding capital amounts and loss per share related to Legacy SoundHound Preferred Stock and Legacy SoundHound Common Stock prior to the Business Combination have been retroactively restated as shares reflecting the conversion ratio established in the Business Combination.

**Going Concern**

Since inception, the Company has generated recurring losses as well as negative operating cash flows and reported a net loss of \$70.9 million for the nine months ended September 30, 2023. As of September 30, 2023, the Company had an accumulated deficit of \$574.4 million. Management expects to continue to incur additional substantial losses in the foreseeable future. The Company has historically funded its operations primarily through equity or debt financings.

Total unrestricted cash and cash equivalents on hand as of September 30, 2023 was \$96.1 million. Although the Company has incurred recurring losses each year since its inception, the Company expects it will be able to fund its operations for at least the next twelve months. The Company may seek funding through additional debt or equity financing arrangements, implement incremental expense reduction measures or a combination thereof to continue financing its operations. The Company's condensed consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates, among other things, the realization of assets and satisfaction of liabilities in the normal course of business.

**Other Risk and Uncertainties**

Inflation has risen significantly worldwide and the United States has recently experienced historically high levels of inflation. This inflation and government efforts to combat inflation, such as recent and future significant increases to benchmark interest rates and other related monetary policies, have and could continue to increase market volatility and have an adverse effect on the domestic and international financial markets and general economic conditions.

Additionally, U.S. and global markets are experiencing volatility and disruption following the escalation of geopolitical tensions and the start of the military conflict between Russia and Ukraine and the Israel-Hamas war. Although our business has not been materially impacted by the Russia-Ukraine conflict or the Israel-Hamas war, it is impossible to predict the extent to which our operations, or those of our customers' suppliers and manufacturers, will be impacted in the short and long-term, or the ways in which the conflict may impact our business. The extent and duration of the military action, sanctions and resulting market disruptions are impossible to predict but could be substantial.

**NOTE 2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation and Significant Accounting Policies**

The (a) condensed consolidated balance sheet as of December 31, 2022, which has been derived from audited financial statements as filed in the Company's Form 10-K, which was originally filed with the Securities and Exchange Commission ("SEC") on March 28, 2023 and (b) the unaudited interim condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") and applicable rules and regulations of the SEC regarding annual financial reporting. Any reference in these notes to applicable accounting guidance is meant to refer to the authoritative U.S. GAAP included in the Accounting Standards Codification ("ASC"), and Accounting Standards Update ("ASU") issued by the Financial Accounting Standards Board ("FASB"). The condensed consolidated financial statements have been prepared on a basis consistent with the audited consolidated financial statements and in the

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(Unaudited)**

opinion of management, all adjustments, consisting of normal recurring adjustments, considered necessary for a fair statement of its financial position as of September 30, 2023, and its results of operations for the three and nine months ended September 30, 2023, and 2022 and cash flows for the nine months ended September 30, 2023, and 2022. have been included. The results of operations for the three and nine months ended September 30, 2023 are not necessarily indicative of the results for the fiscal year ending December 31, 2023 or any future interim period.

Certain information and note disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations, although the company believes that the disclosures made are adequate to make the information not misleading.

**Principles of Consolidation**

The Company's condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

We consolidate any variable interest entity ("VIE") where we have determined we are the primary beneficiary. The primary beneficiary is the entity which has both: (i) the power to direct the activities of the VIE that most significantly impact the VIE's economic performance; and (ii) the obligation to absorb losses or receive benefits of the entity that could potentially be significant to the VIE.

**Reclassification**

Certain prior period balances have been reclassified to conform to the current year presentation. Such changes include reclassifications or combinations of certain accounts on the condensed consolidated statements of redeemable convertible preferred stock and stockholders' equity (deficit). These reclassifications had no impact on total assets, total liabilities, net loss or accumulated deficit in the previously reported consolidated financial statements for the three and nine months ended September 30, 2022.

**Foreign Currency**

The functional currency of the Company and its subsidiaries is the U.S. dollar. Foreign currency denominated transactions are converted into U.S. dollars at the average rates of exchange prevailing during the period. Assets and liabilities denominated in foreign currency are remeasured into U.S. dollars at current exchange rates at the balance sheet date for monetary assets and liabilities and at historical exchange rates for non-monetary assets and liabilities. During the three and nine months ended September 30, 2023, the Company recognized net losses related to foreign currency transactions and remeasurements of \$0.2 million and \$0.5 million, respectively, in the condensed consolidated statements of operations as other income (expense), net. During the three and nine months ended September 30, 2022, the Company recognized net losses related to foreign currency transactions and remeasurements of \$0.1 million and \$0.4 million, respectively, in the condensed consolidated statements of operations as other income (expense), net.

**Use of Estimates**

The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and judgments that affect the amounts reported and disclosures in the condensed consolidated financial statements and accompanying notes. Such estimates include revenue recognition, allowance for doubtful accounts, accrued liabilities, derivative and warrant liabilities, calculation of the incremental borrowing rate, financial instruments recorded at fair value on a recurring basis, valuation of deferred tax assets and uncertain tax positions and the fair value of common stock and other assumptions used to measure stock-based compensation expense. The Company bases its estimates on historical experience, the current economic environment and on assumptions it believes are reasonable under the circumstances. The Company adjusts such estimates and assumptions when facts and circumstances dictate. Changes in those estimates resulting from changes in the economic environment will be reflected in the financial statements in future periods. Actual results could differ materially from those estimates.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

**Segment Information**

The Company has determined that the Chief Executive Officer is its chief operating decision maker. The Company's Chief Executive Officer reviews discrete financial information on a consolidated basis for purposes of allocating resources and evaluating financial performance. Accordingly, the Company has determined that it operates as a single reportable segment.

**Emerging Growth Company Status**

The Company is an emerging growth company ("EGC") as defined in the Jumpstart Our Business Startups Act of 2012 ("JOBS Act") and may take advantage of reduced reporting requirements that are otherwise applicable to public companies. Section 107 of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies are required to comply with those standards. This means that when a standard is issued or revised and it has different application dates for public and nonpublic companies, the Company has the option to adopt the new or revised standard at the time nonpublic companies adopt the new or revised standard and can do so until such time that the Company either (i) irrevocably elects to "opt out" of such extended transition period or (ii) no longer qualifies as an emerging growth company. The Company has elected to use the extended transition period for complying with new or revised accounting standards unless the Company otherwise early adopts select standards. Based on the market value of our Class A common stock held by non-affiliates as of June 30, 2023, we will cease to qualify as an EGC effective as of December 31, 2023.

**Cash and Cash Equivalents**

The Company considers all highly liquid investments purchased with an original maturity of three months or less from the date of purchase to be cash equivalents. The Company's cash equivalents consist of mutual funds, commercial paper and certificates of deposit. The deposits exceed federally insured limits.

**Restricted Cash Equivalents**

The Company's restricted cash equivalents were established according to the requirements under the Credit Agreement (as defined in Note 8) and leases for the Company's corporate headquarters, data center and sales office and are subject to certain restrictions. Restricted cash equivalents are classified as current or non-current on the condensed consolidated balance sheets based on the expected duration of the restriction.

Our total cash and cash equivalents and restricted cash, as presented on the condensed consolidated statements of cash flows, was as follows (in thousands):

	<b>September 30, 2023</b>	<b>December 31, 2022</b>
Cash and cash equivalents	\$ 96,146	\$ 9,245
Restricted cash equivalents, non-current	13,775	230
Total as presented on the condensed consolidated statements of cash flows	<u>\$ 109,921</u>	<u>\$ 9,475</u>

**Concentrations of Credit Risk and Other Risks and Uncertainties**

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of cash and cash equivalents, the balances of which frequently exceed federally insured limits. The Company regularly monitors its credit risk exposure and takes steps to mitigate the likelihood of these exposures resulting in actual loss.

As of September 30, 2023, accounts receivable balances due from Customer A, B and C accounted for 30%, 25% and 18% of the Company's condensed consolidated accounts receivable balance, respectively. As of December 31, 2022, accounts receivable balances due from Customer A and B accounted for 49% and 27% of the Company's condensed consolidated accounts receivable balance, respectively.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

For the three months ended September 30, 2023 and September 30, 2022, Customer A accounted for 72% and 63% of revenue, respectively. For the nine months ended September 30, 2023, Customer A and D accounted for 46% and 20% of revenue, respectively. For the nine months ended September 30, 2022, Customer A, B, D and E accounted for 41%, 14%, 10% and 13% of revenue, respectively.

**Equity Line of Credit ("ELOC")**

The Company enters into certain agreements to sell common stock with counterparties to further support its growth strategy through initiatives such as accretive acquisitions and internal investments, to bolster working capital, and/or for general corporate purposes. The Company evaluates its common stock purchase agreements to determine whether they should be accounted for as derivatives with changes in fair value as other income (expense), net in the period in which they occur.

**Equity Issuance Costs**

The Company capitalizes certain legal, professional, accounting and other third-party fees that are directly associated with in-process equity financings as deferred offering costs until such financings are consummated. After consummation of the financing, these costs are recorded as a reduction of the proceeds received from the equity financing. If a planned equity financing is abandoned, the deferred offering costs are expensed immediately as a charge to operating expenses in the condensed consolidated statements of operations.

**Revenue Recognition**

The Company recognizes revenue under Accounting Standards Codification Topic 606 ("ASC 606"), Revenue from Contracts with Customers, when a customer obtains control of promised goods or services in an amount that reflects the consideration which the entity expects to receive in exchange for those goods or services. To determine revenue recognition for arrangements that an entity determines are within the scope of ASC 606, the Company performs the following five steps:

- (i) Identification of the contract(s) with a customer;
- (ii) Identification of the performance obligations in the contract;
- (iii) Determination of the transaction price, including the constraint on variable consideration;
- (iv) Allocation of the transaction price to the performance obligations in the contract; and
- (v) Recognition of revenue when, or as, performance obligations are satisfied.

Contracts are accounted for when both parties have approved and committed to the contract, the rights of the parties and payment terms are identifiable, the contract has commercial substance and collectibility of consideration is probable. Any payments received from customers that do not meet criteria for having a contract are recorded as deposit liabilities on the condensed consolidated balance sheet.

Under ASC 606, assuming all other revenue recognition criteria have been met, the Company recognizes revenue for arrangements upon the transfer of control of the Company's performance obligations to its customers. A performance obligation is a promise in a contract to transfer a distinct good or service to a customer and is the unit of account in ASC 606. Revenues are recognized when control of the promised goods or services are transferred to a customer in an amount that reflects the consideration that the Company expects to receive in exchange for those services.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

**Research and Development**

The Company's research and development costs are expensed as incurred. These costs include salaries and other personnel related expenses, contractor fees, facility costs, supplies and depreciation of equipment associated with the design and development of new products prior to the establishment of their technological feasibility.

**Warrants**

The Company determines whether to classify contracts, such as warrants, that may be settled in its own stock as equity of the entity or as a liability. An equity-linked financial instrument must be considered indexed to the Company's own stock to qualify for equity classification. The Company classifies warrants as liabilities for any contracts that may require a transfer of assets. Warrants classified as liabilities are accounted for at fair value and remeasured at each reporting date until exercise, expiration or modification that results in equity classification. Any change in the fair value of the warrants is recognized as other income (expense), net in the condensed consolidated statements of operations.

**Income Taxes**

The Company accounts for income taxes under the asset and liability method, whereby deferred tax assets and liabilities are determined based on the difference between the financial statement and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to affect taxable income. A valuation allowance is established when, in management's estimate, it is more-likely-than-not that the deferred tax asset will not be realized. The Company adopted a more-likely-than-not threshold for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. The Company records a liability for the difference between the benefit recognized and measured and the tax position taken or expected to be taken on the Company's tax return.

The Company classifies interest and penalties related to uncertain tax positions in income tax expense, if applicable. There has been no interest expense or penalties related to unrecognized tax benefits recorded through September 30, 2023.

**Stock-Based Compensation**

The Company measures and records the expense related to stock-based payment awards based on the fair value of those awards as determined on the date of grant. The Company recognizes stock-based compensation expense over the requisite service period of the individual grant, generally equal to the vesting period, and uses the straight-line method to recognize stock-based compensation. The Company accounts for forfeitures as they occur. The Company uses the Black-Scholes option-pricing model to determine the fair value of stock options and employee stock purchase plan ("ESPP") shares. The Black-Scholes option-pricing model requires the use of highly subjective and complex assumptions to determine the fair value of the awards, including the expected term of the award and the price volatility of the underlying stock. The Company calculates the fair value of the awards granted by using the Black-Scholes option-pricing model with the following assumptions:

*Expected Volatility* — The Company estimates volatility for the awards by evaluating the average historical volatility of a peer group of companies for the period immediately preceding the award grant for a term that is approximately equal to the awards' expected term.

*Expected Term* — The expected term of the Company's awards represents the period that the stock-based awards are expected to be outstanding. The Company has elected to use the midpoint between the stock options' vesting term and contractual expiration period to compute the expected term, as the Company does not have sufficient historical information to develop reasonable expectations about future exercise patterns and post-vesting employment termination behavior. For the valuation of ESPP shares, the Company, uses the period of time from the valuation date to the purchase date.

*Risk-Free Interest Rate* — The risk-free interest rate is based on the implied yield currently available on U.S. Treasury zero-coupon issues with a term that is equal to the awards' expected term at the grant date.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

*Expected Dividend Yield* — The Company has not declared or paid dividends to date and does not anticipate declaring dividends. As such, expected dividend yield is zero.

### **Restricted Stock Units**

The Company issues restricted stock unit awards (“RSUs”) to grantees as compensation for services. The fair value of the RSUs is determined at the grant date based on the fair value of the Company’s Class A Common Stock and for RSUs with service conditions only, is recognized straight-line over the service period.

The Company issues RSUs with vesting conditions tied to certain performance criteria (“Performance-Based RSUs”). Stock-based compensation related to Performance-Based RSUs is recognized to the extent it is determined that performance is probable of being achieved.

The Company issues RSUs with vesting conditions tied to certain market conditions (“Market-Based RSUs”). To derive the fair value of Market-Based RSUs, the Company applies a Monte Carlo simulation to determine the grant date fair value. Stock-based compensation related to Market-Based RSUs is recognized over the derived service period.

### **Fair Value Measurements**

The Company defines fair value as the exchange price that would be received from an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. The Company follows a three-level valuation hierarchy for disclosure of fair value measurements as follows:

- Level 1 — Inputs are unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 — Inputs (other than quoted market prices included in Level 1) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument’s anticipated life.
- Level 3 — Inputs reflect management’s best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model.

The fair value of our variable rate Term Loan approximates carrying value as the interest rate of the loan approximates market rates.

The following table presents the fair value of the Company’s financial instruments that are measured or disclosed at fair value on a recurring basis (in thousands):

	<b>September 30, 2023</b>		
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>
Assets:			
Money market fund	\$ 40,495	\$ —	\$ —
Total assets	<u>\$ 40,495</u>	<u>\$ —</u>	<u>\$ —</u>

There were no financial instrument assets measured or disclosed at fair value on a recurring basis as of December 31, 2022.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

	<u>Equity Line of Credit</u>	<u>Total Level 3</u>

**Preferred Stock**

The Company assesses its preferred stock instruments at issuance and each reporting period for classification and derivative features requiring bifurcation.

The Company presents as temporary equity any stock which (i) the Company undertakes to redeem at a fixed or determinable price on the fixed or determinable date or dates; (ii) is redeemable at the option of the holders, or (iii) has conditions for redemption which are not solely within the control of the Company. For stock presented as temporary equity that is not currently redeemable, the Company assesses the probability of the event that would lead to redemption. If it is probable that the equity instrument will become redeemable, the Company accretes changes in the redemption value over the period from the date of issuance, or from the date that it becomes probable that the instrument will become redeemable, if later, to the earliest redemption date of the instrument using an appropriate methodology. If an equity instrument classified as temporary equity is not probable of redemption, subsequent adjustment of the amounts presented in temporary equity is unnecessary.

**Net Loss Per Share**

Basic net loss per share attributable to common stockholders is calculated by dividing the net loss attributable to common stockholders by the weighted-average number of shares of common stock outstanding during the period, without consideration for potentially dilutive securities.

Diluted net loss per share attributable to common stockholders is computed by dividing the net loss attributable to common stockholders by the weighted-average number of common stock and potentially dilutive securities outstanding for the period. For purposes of the diluted net loss per share calculation, Series A Preferred Stock, stock options, ESPP shares, RSUs and warrants are considered to be potentially dilutive securities. See Note 13 for further information.

Accordingly, in periods in which the Company reports a net loss, diluted net loss per share is the same as basic net loss per share, since dilutive common stock is not assumed to have been issued if their effect is anti-dilutive.

The Company issued Series A Preferred Stock, which accrues cumulative dividends which are either paid in cash or compounding to the liquidation preference at the discretion of the board of directors. The Company accrues dividends as adjustments to net loss before net loss attributable to common stockholders.

The Company applies the two-class method to calculate its basic and diluted net loss per share as the Company has issued shares that meet the definition of participating securities. The two-class method is an earnings allocation formula that treats a participating security as having rights to earnings that otherwise would have been available to common stockholders. The

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

Company's participating securities contractually entitle the holders of such shares to participate in dividends, but do not contractually require the holders of such shares to participate in losses of the Company. Accordingly, in periods in which the Company reports a net loss, such losses are not allocated to such participating securities.

**NOTE 3. BUSINESS COMBINATION**

As discussed in Note 1, on April 26, 2022, the Business Combination was consummated. Pursuant to the Company's Second Amended and Restated Certificate of Incorporation (the "certificate of incorporation"), the Company is authorized to issue 500,000,000 shares of capital stock consisting of 455,000,000 shares of Class A Common Stock, 44,000,000 shares of Class B Common Stock, and 1,000,000 shares of preferred stock. All stock has a par value of \$0.0001 per share. The holders of Class A Common Stock are entitled to one vote for each share of Class A Common Stock held and the holders of Class B Common Stock are entitled to ten votes per share on all matters submitted to stockholders for their vote or approval. The holders of Class A Common Stock and Class B Common Stock vote together as one class, other than on certain specific matters described in the Company's certificate of incorporation.

The Business Combination was approved by ATSP's stockholders at a special meeting thereof (the "Special Meeting"), held in lieu of the 2022 annual meeting of the Company's stockholders. The Business Combination fulfilled the definition of an "initial business combination" as required by the ATSP's Amended and Restated Certificate of Incorporation. This fulfillment resulted in ATSP ceasing to be a shell company upon the Closing.

An aggregate of 12,767,950 shares of Class A Common Stock sold in ATSP's initial public offering (the "public shares") exercised their rights to redemption. The redemption right provided holders the right to have their public shares redeemed for a pro rata portion of the trust account holding the proceeds from ATSP's initial public offering. The value of the shares is calculated as of two (2) business days prior to the date of the Special Meeting, which was \$10.00 per share, or \$127.7 million in the aggregate.

As a result of the Business Combination, among other things (1) all outstanding shares of Legacy SoundHound Common Stock as of immediately prior to the Closing (including Legacy SoundHound Common Stock resulting from the Legacy SoundHound Preferred Stock Conversion), were exchanged at an conversion ratio of 5.5562 (the "Conversion Ratio") for an aggregate of 140,114,060 shares of Class A Common Stock and 40,396,600 Class B Common Stock; (2) each outstanding warrant to purchase shares of Legacy SoundHound Common Stock automatically converted into a warrant to purchase, subject to substantially the same terms and conditions as were applicable under these warrants prior to the Effective Time, shares of Class A Common Stock, proportionately adjusted for the Conversion Ratio, with the per share exercise price equal to the exercise price prior to the Effective Time divided by the Conversion Ratio and were net exercised upon the Closing; (3) each outstanding option to purchase shares of Legacy SoundHound Common Stock converted into an option to purchase, subject to substantially the same terms and conditions as were applicable under these options prior to the Effective Time, shares of Class A Common Stock equal to the number of shares subject to such option prior to the Effective Time multiplied by the Conversion Ratio, with the per share exercise price equal to the exercise price prior to the Effective Time divided by the Conversion Ratio; (4) each Legacy SoundHound RSU converted into a restricted stock unit of SoundHound, subject to substantially the same terms and conditions as were applicable under the SoundHound RSU prior to the Closing. SoundHound RSU holders received the same consideration holders would have received if the SoundHound RSU was converted into Legacy SoundHound Common Stock immediately prior to the Effective Time.

In connection with the Merger Agreement, ATSP entered into subscription agreements (collectively, the "Subscription Agreements") with certain accredited investors (the "Subscribers"). Pursuant to the Subscription Agreements, the Subscribers agreed to purchase, and ATSP agreed to sell to the Subscribers, an aggregate of 11,300,000 shares of Class A Common Stock ("PIPE Shares"), for a purchase price of \$10.00 per share and an aggregate purchase price of \$113.0 million (the "PIPE Investment"). The PIPE shares are identical to the shares of Class A Common Stock that were held by the ATSP's public stockholders at the time of the Closing, except that the PIPE Shares were not entitled to any redemption rights. The sale of PIPE Shares was consummated concurrently with the Closing.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

The Business Combination is accounted for as a reverse recapitalization in accordance with U.S. GAAP. Under this method of accounting, ATSP was treated as the “acquired” company for financial reporting purposes. The net assets of Legacy SoundHound were stated at historical cost, with no goodwill or other intangible assets recorded.

In accounting for the Business Combination and after redemptions, net proceeds received by the Company totaled \$90.7 million. The table below shows the total net proceeds from the Business Combination and the PIPE Investment (in thousands):

Cash - ATSP trust and cash (net of redemption)	\$ 5,357
Cash - PIPE Investment	113,000
Less: transaction costs	(27,668)
Net proceeds from Business Combination and PIPE Investment	<u>\$ 90,689</u>

Relating to the consummation of the Business Combination, the Company incurred \$27.7 million in total transaction costs consisting of direct legal, accounting and other fees. \$4.1 million of Legacy SoundHound transaction costs specific and directly attributable to the Business Combination were initially capitalized as deferred offering costs and included in other non-current assets on the condensed consolidated balance sheets. Total transaction expenses were recorded as an offset against proceeds received on the closing of the Business Combination, accounted for as additional paid-in capital.

The amount recorded to additional paid-in-capital was comprised of \$86.6 million net proceeds from the PIPE investment and \$4.1 million after net redemptions of ATSP shareholders.

The number of shares of common stock issued immediately following the consummation of the Business Combination was as follows:

Class A Common Stock - conversion of Legacy SoundHound Common Stock and Legacy SoundHound Preferred Stock outstanding prior to Business Combination	140,114,060
Class B Common Stock - conversion of Legacy SoundHound Common Stock and Legacy SoundHound Preferred Stock outstanding prior to Business Combination	40,396,600
Class A Common Stock - PIPE Investment	11,300,000
Class A Common Stock - issuance to ATSP shareholders	532,050
Class A Common Stock - issuance to Legacy SoundHound founders and representatives	4,161,000
Total shares of common stock immediately after Business Combination	<u>196,503,710</u>

#### **NOTE 4. REVENUE RECOGNITION**

##### **Revenue Recognition**

The Company recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Revenues are generally recognized upon the transfer of control of promised products or services provided to customers, reflecting the amount of consideration the Company expects to receive for those products or services.

The Company’s arrangements with customers may contain multiple obligations. Individual services are accounted for separately if they are distinct — that is, if a service is separately identifiable from other items in the contract and a customer can benefit from it in its own or with other resources that are readily available to the customer.

The Company derives its revenue primarily from the following performance obligations: (1) hosted services, (2) professional services, (3) monetization, and (4) licensing. Revenue is reported net of applicable sales and use taxes that are passed through to customers.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

The Company has the following performance obligations in contracts with customers:

**Hosted Services**

Hosted services, along with non-distinct customization, integration, maintenance and support professional services, allow customers to access the Houndify platform over the contract period without taking possession of the software. The contract terms of hosted services range from one year to twenty years.

The Company has determined that the hosted services arrangements are a single performance obligation comprised of a series of distinct services, since each day of providing access to hosted services is substantially the same and the customer simultaneously receives and consumes the benefits as access is provided. These services are provided either on a usage basis (i.e., variable consideration) or on a fixed fee subscription basis. The Company recognizes revenue as each distinct service period is performed (i.e., recognized as incurred).

Hosted services generally include up-front services to develop and/or customize the Houndify application to each customer's specification. Judgement is required to determine whether these professional services are distinct from the hosted services. In making this determination, factors such as the degree of integration, the customers' ability to start using the software prior to customization, and the availability of these services from other independent vendors are considered.

In instances where the Company concluded that the up-front services are not distinct performance obligations, revenues for these activities are recognized over the period which the hosted services are provided and is included within hosted services revenue.

**Professional Services**

Revenues from distinct professional services, such as non-integrated development services, are either recognized over time based upon the progress towards completion of the project, or at a point in time at project completion. The Company assesses distinct professional services to determine whether the transfer of control is over-time or at a point in time. The Company considers three criteria in making their assessment, including (1) the customer simultaneously receives and consumes the benefits; (2) the Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or (3) the Company's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date. If none of the criteria are met, revenues are determined to be recognized at a point in time.

For distinct professional services determined to be recognized over-time, measuring the stage of completion of a project requires significant judgement and estimates, including actual efforts spent in relation to estimated total costs and percentage of completion based on input and output measures. During the three and nine months ended September 30, 2023, \$0.9 million and \$5.9 million, respectively, of professional service revenue was recognized over time. During the three months ended September 30, 2023, there was no professional service revenue recognized at a point in time when the performance obligation was fulfilled and control of the service was transferred to the customer. During the nine months ended September 30, 2023, \$0.9 million of professional service revenue was recognized at a point in time when the performance obligation was fulfilled and control of the service was transferred to the customer. During the three and nine months ended September 30, 2022, \$0.4 million and \$1.2 million, respectively, of professional service revenue was recognized over time, with the remaining \$0.3 million and \$1.4 million, respectively, recognized at a point in time when the performance obligation was fulfilled and control of the service was transferred to the customer.

**Monetization**

Monetization revenues are primarily derived from advertising payments associated with ad impressions placed on the SoundHound music identification application. The Company derives an immaterial amount of revenue from sales commissions earned from song purchases facilitated by the SoundHound app and App store fees paid for ads-free downloads of the SoundHound music identification app. The amount of revenue is based on actual monetization generated or usage, which represent a variable consideration with constrained estimates. Therefore, the Company recognizes the related revenues at a point in time when advertisements are placed, when commissions are paid or when the SoundHound

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

application is downloaded. The determination of whether revenue should be reported on a gross or net basis is based on an assessment of whether the Company is acting as a principal or an agent in the transaction. The Company has determined that it does not act as the principal in monetization arrangements because it does not control the transfer of the service and it does not set the price. Based on these factors, the Company reports revenue on a net basis.

**Licensing**

The Company licenses voice solutions that are embedded in customer's products. Licensing revenues are a distinct performance obligation that is recognized when control is transferred to the customer, which is at a point in time for non-customized solutions. For licenses with non-distinct customized solutions, revenues are recognized over time based on the progress towards completion of the customized solution. Revenues generated from licensing are based on royalty models with a combination of minimum guarantees and per unit pricing. Royalty periods are generally subsequent to when control of the license passes to the customer. The Company records licensing revenue as a usage-based royalty from customers' usage of intellectual property in the same period in which the underlying sale occurs. For royalty arrangements that include fixed considerations related to a minimum guarantee from a customer, the fixed consideration allocated to the license is recognized when the control of the license passes to the customer. The Company provides assurance-type warranty services and to date, post-contract support has been an immaterial performance obligation within the context of the contract.

When a contract has multiple performance obligations, the transaction price is allocated to each performance obligation based on its relative estimated standalone selling price ("SSP"). Judgments are required to determine the SSP for each distinct performance obligation. SSP is determined by maximizing observable inputs from pricing of standalone sales, when possible. Since prices vary from customer to customer based on customer relationship, volume discount and contract type, in instances where the SSP is not directly observable, the Company estimates SSP by considering the following factors:

- Costs of developing and supplying each performance obligation;
- Industry standards;
- Major product groupings; and
- Gross margin objectives and pricing practices, such as contractually stated prices, discounts offered, and applicable price lists.

These factors may vary over time, depending upon the unique facts and circumstances related to each deliverable. If the facts and circumstances underlying the factors considered change or should future facts and circumstances lead the Company to consider additional factors, the Company's best estimate of SSP may also change.

The Company's long-term contracts do not have significant financing components, as there is generally payment and performance in each year of the contract. The Company has elected the practical expedient to not adjust promised amounts of consideration for the effects of a significant financing component if the Company expects, at contract inception, that the period between when the Company transfers a promised good or service to a customer and when the customer pays for that good or service will be one year or less. If there is a period of one year or longer between the transfer of promised services and payment, it is generally for reasons other than financing and, thus, the Company does not adjust the transaction price for financing components.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

For the three and nine months ended September 30, 2023 and 2022, revenue under each performance obligation was as follows (in thousands):

	<b>Three Months Ended September 30,</b>		<b>Nine Months Ended September 30,</b>	
	<b>2023</b>	<b>2022</b>	<b>2023</b>	<b>2022</b>
Hosted services	\$ 4,262	\$ 4,878	\$ 12,753	\$ 12,672
Licensing	7,933	5,389	8,671	5,660
Professional services	912	694	6,839	2,644
Monetization	161	225	463	652
<b>Total</b>	<b>\$ 13,268</b>	<b>\$ 11,186</b>	<b>\$ 28,726</b>	<b>\$ 21,628</b>

For the three and nine months ended September 30, 2023 and 2022, the disaggregated revenue by geographic location was as follows (in thousands):

	<b>Three Months Ended September 30,</b>		<b>Nine Months Ended September 30,</b>	
	<b>2023</b>	<b>2022</b>	<b>2023</b>	<b>2022</b>
Korea	\$ 9,550	\$ 7,402	\$ 14,132	\$ 9,609

<b>Total</b>	<b>\$ 13,268</b>	<b>\$ 11,186</b>	<b>\$ 28,726</b>	<b>\$ 21,628</b>

For the three and nine months ended September 30, 2023 and 2022, the disaggregated revenue by recognition pattern was as follows (in thousands):

	<b>Three Months Ended September 30,</b>		<b>Nine Months Ended September 30,</b>	
	<b>2023</b>	<b>2022</b>	<b>2023</b>	<b>2022</b>
Over time revenue	\$ 5,175	\$ 5,251	\$ 18,710	\$ 13,852
Point-in-time	8,093	5,935	10,016	7,776
<b>Total</b>	<b>\$ 13,268</b>	<b>\$ 11,186</b>	<b>\$ 28,726</b>	<b>\$ 21,628</b>

The Company also disaggregates revenue by service type. This disaggregation consists of Product Royalties, Service Subscriptions and Monetization. Product Royalties revenues are derived from Houndified Products, which are voice-enabled tangible products across the automotive and consumer electronics industries. Revenues from Product Royalties are based on volume, usage, or life of the products, which are driven by number of devices, users, or unit of time. Service Subscription revenues are generated through Houndified Services, which include customer services, food ordering, content, appointments, and voice commerce. Subscription revenues are derived from monthly fees based on usage-based revenue, revenue per query or revenue per user. Both Houndified Products and Houndified Services may include professional services that develop and customize the Houndify platform to fit customers' specific needs. Revenues from Monetization are generated from the SoundHound music identification app and is primarily attributable to user ad impression revenue.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

For the three and nine months ended September 30, 2023 and 2022, the disaggregated revenue by service type was as follows (in thousands):

	<b>Three Months Ended September 30,</b>		<b>Nine Months Ended September 30,</b>	
	<b>2023</b>	<b>2022</b>	<b>2023</b>	<b>2022</b>
Product royalties	\$ 12,616	\$ 10,265	\$ 26,972	\$ 19,534
Service subscriptions	491	696	1,291	1,442
Monetization	161	225	463	652
Total	<u>\$ 13,268</u>	<u>\$ 11,186</u>	<u>\$ 28,726</u>	<u>\$ 21,628</u>

**Contract Balances**

The Company performs its obligations under a contract with a customer by providing access to software, licensing right to use software, or providing services in exchange for consideration from the customer. The timing of the Company's performance often differs from the timing of the customer's payment, which results in the recognition of a receivable, a contract asset, or a contract liability. The Company has not recorded any asset impairment charges related to contract assets during the periods presented in the condensed consolidated financial statements.

Revenues recognized included in the balances of the deferred revenue at the beginning of the reporting period were \$1.5 million and \$6.1 million, respectively, for the three and nine months ended September 30, 2023 as compared to \$2.0 million and \$5.4 million, respectively, for the three and nine months ended September 30, 2022.

During the three and nine months ended September 30, 2023, the Company and a licensing customer modified the minimum guarantee units in an existing contract in the ordinary course of business. The Company accounted for the contract modification prospectively resulting in an increase to net revenue in the amount of \$5.4 million, with corresponding increases in contract asset balances.

As of September 30, 2023, the aggregate amount of the transaction price allocated to the remaining performance obligations related to customer contracts that were unsatisfied or partially unsatisfied was \$13.9 million. Given the applicable contract terms, \$6.8 million is expected to be recognized as revenue within one year, \$4.1 million is expected to be recognized between two to five years and the remainder of \$3.0 million is expected to be recognized after five years. This amount does not include contracts to which the customer is not committed, contracts for which the Company recognizes revenue equal to the amount the Company has the right to invoice for services performed or future sales-based or usage-based royalty payments in exchange for access to the Company's hosted services. This amount is subject to change due to future revaluations of variable consideration, terminations, other contract modifications or currency adjustments. The estimated timing of the recognition of remaining unsatisfied performance obligations is subject to change and is affected by changes to scope, changes in timing of delivery of products and services or contract modifications.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

**NOTE 5. ACCRUED LIABILITIES**

Accrued liabilities consisted of the following (in thousands):

	September 30, 2023	December 31, 2022
Accrued compensation expenses	\$ 7,861	\$ 6,134
Accrued interest	1,685	236
Accrued vendor payables	1,149	1,002
Accrued professional services	243	89
Other accrued liabilities	74	1,076
	<u>\$ 11,012</u>	<u>\$ 8,537</u>

**NOTE 6. COMMITMENTS AND CONTINGENCIES****Contracts**

In August 2021, the Company entered into an exclusive agreement with a cloud service provider to host its voice artificial intelligence platform pursuant to which the Company committed to pay a minimum of \$98.0 million in cloud costs over a seven-year period subject to variable increases based on usage.

Aggregate non-cancelable future minimum payments were as follows as of September 30, 2023 (in thousands):

Remainder of 2023	\$ 1,750
2024	11,000
2025	14,000
2026	16,000
2027	24,000
Thereafter	24,000
Total	<u>\$ 90,750</u>

**Legal Proceedings**

From time to time, the Company may have certain contingent liabilities that arise in the ordinary course of its business activities. The Company accrues contingent liabilities when it is probable that future expenditures will be made, and such expenditures can be reasonably estimated. In the opinion of management, there are no pending claims for which the outcome is expected to result in a material adverse effect on the financial position, results of operations or cash flows of the Company.

**Other Matters**

The Company has not historically collected U.S. state or local sales and use tax, or other similar taxes, in any jurisdiction. On June 21, 2018, the U.S. Supreme Court decided, in *South Dakota v. Wayfair, Inc.*, that state and local jurisdiction may, in certain circumstances, enforce sales and use tax collection obligations on remote vendors that have no physical presence in such jurisdiction. A number of states have already begun, or have positioned themselves to begin, requiring sales and use tax collection from remote vendors. The details and effective dates of these collection requirements vary from state to state. The Company continues to analyze potential sales tax exposure using a state-by-state assessment. In accordance with ASC 450, Contingencies, the Company estimated and recorded a liability of \$1.1 million as of September 30, 2023 and December 31, 2022.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

**NOTE 7. WARRANTS**

As a result of the Business Combination, the Company has retroactively adjusted the Legacy SoundHound warrants outstanding and corresponding strike price prior to April 26, 2022 to give effect to the Conversion Ratio used to determine the number of shares of common stock into which they were converted.

**Warrants Related to Convertible Notes and Note Payable**

In connection with the issuance of the Company's 2021 note payable ("SVB March 2021 Note") and 2021 convertible note ("SCI June 2021 Note"), the Company issued detachable warrants to purchase 708,808 and 354,404 shares of Legacy SoundHound common stock, respectively, with an exercise price of \$3.67 per share to the lenders, which were immediately exercisable. On the Closing Date, all outstanding warrants issued in connection to the SVB March 2021 Note and the SCI June 2021 Note were fully net exercised by their respective lenders, leading to a net issuance of 673,416 shares of Class A Common Stock.

In connection with the Credit Agreement (as defined in Note 8), on the Term Loan Closing Date the Company issued a warrant to purchase up to 3,301,536 shares of the Company's Class A common stock to the Agent (the "Term Loan Warrant"). The Term Loan Warrant has a per share exercise price of \$2.59 and may be exercised, including on a cashless basis, by the holder at any time prior to the 10-year anniversary of the issue date. The Term Loan Warrant will be automatically cashless exercised immediately prior to a change in control of the Company. On the Term Loan Closing Date, the Company allocated the gross proceeds and issuance costs between the Term Loan and the Term Loan Warrant based on their relative fair values, resulting in the initial recognition of the Term Loan Warrant at \$4.1 million as additional paid-in-capital on the condensed consolidated balance sheets.

**Warrants Related to the Business Combination*****Public Warrants***

Prior to the Business Combination, ATSP issued public warrants ("Public Warrants"). Each Public Warrant entitles the holder to the right to purchase one share of common stock at an exercise price of \$11.50 per share. No fractional shares were issued upon exercise of the Public Warrants. The Company may redeem the outstanding warrants, for \$0.01 per warrant, upon not less than 30 days' prior written notice of redemption, if the reported last sale price of the common stock equals or exceeds \$18.00 per share (as adjusted for stock dividends, sub-divisions, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period commencing after the warrants become exercisable and ending on the third trading day before the Company sends the notice of redemption to the warrant holders. Upon issuance of a redemption notice by the Company, the warrant holders may, at any time after the redemption notice, exercise the Public Warrants for cash, or on a cashless basis.

Subsequent to the closing of the Business Combination, the Company's Public Warrants continue to be classified as equity instruments, as they are indexed to the Company's stock. As of September 30, 2023, there were 3,457,996 Public Warrants issued and outstanding.

***Private Warrants***

Prior to the Business Combination, ATSP issued private warrants ("Private Warrants"). The Private Warrants were initially issued in the same form as the Public Warrants with the exception that the Private Warrants: (i) would not be redeemable by the Company and (ii) may be exercised for cash or on a cashless basis, so long as they are held by the initial purchasers or any of their permitted transferees. If the Private Warrants are held by holders other than the initial purchasers or any of their permitted transferees, the Private Warrants will be redeemable by the Company and exercisable by the holders on the same basis as the Public Warrants.

The Private Warrants were initially classified as derivative liability instruments as they met the definition of a derivative and were not considered indexed in the Company's own stock as the settlement value could be dependent on who held the Private Warrants at the time of exercise. Upon the Closing of the Business Combination, the Company modified its Private

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(Unaudited)**

Warrants to be identical to its Public Warrants. Therefore, the Private Warrants met requirements for classification as equity instruments, as they are indexed to the Company's stock. As of September 30, 2023, there were 208,000 Private Warrants issued and outstanding.

#### **NOTE 8. LONG-TERM DEBT**

##### ***SNAP June 2020 Note***

In June 2020, the Company issued a promissory note (the "SNAP June 2020 Note"), to a Lender in exchange for \$15.0 million in cash proceeds. The note had an annual interest rate of 5% and a maturity date of June 26, 2022, if not converted earlier pursuant to applicable conversion terms and change in control events. As a result of the Business Combination, on the Closing Date, the SNAP June 2020 Note conversion feature was triggered. As a result, on the Closing Date, all outstanding principal of \$15.0 million and accrued interest of \$1.4 million were converted into 2,046,827 shares of Class A Common Stock. In addition, the remaining debt discount of \$0.2 million and related derivative liability with fair value of \$4.1 million as of the Closing Date were extinguished.

##### ***SVB March 2021 Note***

In March 2021, the Company entered into a loan and security agreement with a commercial bank to borrow \$30.0 million. The loan bore interest at an annual rate equal to the greater of 9.00% or 5.75% above the Prime Rate (as defined in the SVB March 2021 Note). During the nine months ended September 30, 2023, the Company recorded interest expense of \$1.1 million related to the SVB March 2021 Note. During the three and nine months ended September 30, 2022, the Company recorded interest expense of \$0.7 million and \$3.1 million, respectively, related to the SVB March 2021 Note.

Concurrently with the Company's entry into the Credit Agreement, the Company used a portion of the proceeds to prepay in full all outstanding obligations under, and terminated, the SVB March 2021 Note. In connection with the SVB March 2021 Note prepayment, the Company paid a total of \$18.5 million, which consisted of (i) the remaining principal amount outstanding of \$18.1 million, (ii) a prepayment premium of \$0.3 million, (iii) accrued and unpaid interest of \$0.1 million and (iv) a nominal amount for transaction expenses. The Company recorded a loss on debt extinguishment of \$0.4 million related to the early repayment in interest expense in the condensed consolidated statements of operations.

##### ***SCI June 2021 Note***

In June 2021, the Company entered into a loan and security agreement with a lender to obtain credit extensions to the Company. Extensions were available in \$5.0 million increments up to a total commitment amount of \$15.0 million. The Company drew an initial \$5.0 million on June 14, 2021 and the remaining \$10.0 million on December 1, 2021. The loan bore interest at an annual rate equal to the greater of 9% or 5.75% above the Prime Rate (as defined in the SCI June 2021 Note). During the nine months ended September 30, 2023, the Company recorded interest expense of \$1.0 million related to the SCI June 2021 Note. During the three and nine months ended September 30, 2022, the Company recorded interest expense of \$0.4 million and \$1.9 million, respectively, related to the SCI June 2021 Note.

Concurrently with the Company's entry into the Credit Agreement, the Company used a portion of the proceeds to prepay in full all outstanding obligations under, and terminated, the SCI June 2021 Note. In connection with the SCI June 2021 Note prepayment, the Company paid a total of approximately \$11.7 million, which consisted of (i) the remaining principal amount outstanding of approximately \$11.5 million, (ii) a prepayment premium of approximately \$0.2 million and (iii) a nominal amount for transaction expenses. The Company recorded a loss on debt extinguishment of \$0.4 million related to the early repayment in interest expense in the condensed consolidated statements of operations.

##### ***Term Loan***

On April 14, 2023 (the "Term Loan Closing Date"), the Company entered into a Senior Secured Term Loan Credit Agreement (the "Credit Agreement") with ACP Post Oak Credit II LLC, as Administrative Agent and Collateral Agent for the Lenders (the "Agent"), and the lenders from time to time party thereto (the "Lenders"). The Credit Agreement provides for a term loan facility in an aggregate principal amount of up to \$100.0 million (the "Term Loan"), the entirety of which

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

was funded on the Term Loan Closing Date. The Credit Agreement also permits the Company to request additional commitments of up to \$25.0 million in the aggregate, with funding of such commitments in the sole discretion of the Lenders, under certain circumstances and under the same terms as the Term Loan. On the Term Loan Closing Date, the Company also entered into that certain Guarantee and Collateral Agreement, dated as of April 14, 2023, by and among the Company, the other grantors named therein and the Agent (the "Guarantee and Collateral Agreement"). In addition, the Company is obligated to pay incremental lender fees, beginning on the Closing Date, equal to initially 3.5% of the principal amount of the Term Loans, decreasing to 2.5% after the 18-month anniversary, semi-annually (the "Lender Fees") to provide a collateral protection insurance policy on behalf of the Lenders. The Lender Fees are effectively additional fees payable to the Lenders as the Lenders are the sole beneficiary of the insurance policy and is therefore being recognized as interest expense over the term of the Term Loan based on the effective interest method.

The Company used the proceeds from the Term Loan to (i) repay outstanding amounts equal to approximately \$30.0 million under the Company's existing loan facilities, (ii) fund an escrow account on the Term Loan Closing Date in the name of the Agent for an amount equal to the first four interest payments, (iii) pay certain fees and expenses incurred in connection with entering into the Credit Agreement, and (iv) fund the Lender Fees, together with related taxes, with the remaining proceeds to be used to fund growth investments and for general corporate purposes as permitted under the Credit Agreement.

The outstanding principal balance of the Term Loan bears interest at the applicable margin plus, at the Company's election, either (i) the Term SOFR rate published by CME Group Benchmark Administration Limited for a one-month interest period plus 0.15% or (ii) the alternate base rate ("ABR"), which is a per annum rate equal to the greatest of (a) the Prime Rate (as defined in the Credit Agreement), (b) the NYFRB Rate (as defined in the Credit Agreement) plus 0.50% and (c) the Term SOFR rate plus 1.00%. The applicable margin under the Credit Agreement is 8.50% per annum with respect to SOFR loans, and 7.50% per annum with respect to ABR loans. As of September 30, 2023, the contractual interest rate was approximately 14.0%.

Subject to certain exceptions as set forth in the Credit Agreement, interest on the Term Loan is payable quarterly in arrears on the last business day of each fiscal quarter. The Term Loan is set to mature on April 14, 2027 (the "Maturity Date"). The Credit Agreement provides for no scheduled principal payments prior to the Maturity Date.

The Term Loan is secured by substantially all of the assets of the Company and its subsidiaries and is guaranteed by the Company's subsidiaries other than Excluded Subsidiaries. As set forth in more detail in the Credit Agreement, the Company is required to make mandatory prepayments on the Term Loan in the event of certain specified events, including in the event of certain capital raises by the Company and its subsidiaries. The Company may also elect to prepay amounts at any time. If the Term Loan is prepaid for any reason prior to the second anniversary of the Closing Date, in addition to principal and accrued interest, the Company will have to pay an amount equal to the discounted future interest payments from the date of redemption through the second anniversary of the Closing Date, calculated on the basis of the interest rate in effect on the redemption date and discounted based on the applicable rate for US treasury securities of equal tenor plus 50 basis points. Additionally, the Company will have to pay the excess of 14% of the Term Loans over the amount of the Lender Fees paid through the Redemption Date.

The Credit Agreement also contains customary representations and warranties for a facility of this nature and affirmative and negative covenants. In particular, the Credit Agreement requires the Company to have liquidity at least equal to the Interest Escrow Required Amount (as defined in the Credit Agreement) as of the last day of each fiscal quarter. The Interest Escrow Required Amount is included in restricted cash equivalents, non-current on the condensed consolidated balance sheet as of September 30, 2023. In addition, the Credit Agreement limits the Company's and its subsidiaries' ability to incur indebtedness, make restricted payments, including cash dividends on its common stock, make certain investments, loans and advances, enter into mergers and acquisitions, sell, assign transfer or otherwise dispose of its assets, enter into transactions with its affiliates and engage in sale and leaseback transactions, among other restrictions. As of September 30, 2023, the Company was in compliance with all covenants prescribed in the Credit Agreement.

The Credit Agreement includes customary events of default, including, but not limited to, nonpayment of principal or interest, breaches of representations and warranties, failure to perform or observe covenants, cross-defaults with certain other indebtedness, final judgments or orders, certain change of control events, and certain bankruptcy-related events or

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

proceedings. Upon the occurrence of an event of default (subject to notice and grace periods), obligations under the Credit Agreement could be accelerated.

The aggregate long-term debt maturities were as follows as of September 30, 2023 (in thousands):

Remainder of 2023	\$	—

Carrying value of long-term debt	<u>\$ 83,308</u>	<u>\$ 18,299</u>

#### **NOTE 9. RESTRUCTURING**

In January 2023, the Company announced a restructuring plan (the "Restructuring Plan") intended to reduce operating costs, improve operating margins, improve cash flows and accelerate the Company's path to profitability. The Restructuring Plan included a reduction of the Company's then-current workforce by approximately 40% or 180 positions globally.

Costs associated with the Restructuring Plan consist of employee severance payments, employee benefits and share-based compensation. The costs associated with the Restructuring Plan were recorded to the restructuring expense line item within our condensed consolidated statements of operations as incurred. During the nine months ended September 30, 2023, we recorded \$3.8 million of restructuring expenses in connection with the Restructuring Plan, of which \$1.4 million were cash payments. The Restructuring Plan was substantially complete as of September 30, 2023.

#### **NOTE 10. PREFERRED STOCK**

##### **Legacy SoundHound Preferred Stock**

Legacy SoundHound Preferred Stock was not mandatorily redeemable. Legacy SoundHound Preferred Stock was contingently redeemable upon a deemed liquidation event which the Company determined was not solely within its control as the Company determined that a deemed liquidation event can only occur with the approval of the board of directors and the preferred shareholders maintained control of the board of directors as of December 31, 2021 and through April 26, 2022, the effective date of the Business Combination, and thus has classified shares of Legacy SoundHound Preferred

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

Stock as temporary equity. Since the occurrence of a deemed liquidation event was not probable, the carrying values of the shares of Legacy SoundHound Preferred Stock were not being accreted to their redemption values.

A summary of the Legacy SoundHound Preferred Stock authorized, issued and outstanding as of the date of the Business Combination is as follows:

	Shares Authorized	Shares Issued	Liquidation Preference	Carrying Value
Series A	19,106,048	19,106,048	\$ 28,239	\$ 4,967
Series B	33,702,134	33,702,134	66,360	11,038
Series C	5,687,525	5,687,525	38,163	11,837
Series C-1	4,436,090	4,436,090	89,298	16,061
Series D	20,258,299	20,258,299	527,992	85,648
Series D-1	8,418,535	8,418,535	277,812	49,957
Series D-2	8,418,530	8,418,530	277,811	49,949
Series D-3	6,922,165	6,922,165	276,887	50,046
Series D-3A	20,835,869	—	—	—
	<u>127,785,195</u>	<u>106,949,326</u>	<u>\$ 1,582,562</u>	<u>\$ 279,503</u>

Upon the closing of the Business Combination, the outstanding shares of Series A, B, C, C-1, D, D-1, D-2, and D-3 preferred stock were converted into 106,949,326 shares of SoundHound AI Class A Common Stock at the exchange ratio of 1-for-1. Shares Authorized and Shares Issued above have been retroactively adjusted to reflect the exchange of 1 share of Legacy SoundHound stock into 5.5562 shares of the Company's Class A or Class B Common Stock. As a result of the conversion of the Legacy SoundHound redeemable convertible preferred stock, the Company reclassified the amount of redeemable convertible preferred stock to additional paid in capital.

Upon the consummation of the Business Combination, the Company is authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share. The number of authorized shares of preferred stock may also be increased or decreased by the affirmative vote of the holders of a majority of the voting power of all the then-outstanding shares of capital stock of the Company entitled to vote thereon, without a separate vote of the holders of preferred stock. Any new series of preferred stock may be designated, fixed and determined as provided by the Board without approval of the holders of common stock or preferred stock and the preferred stock holders may be granted such rights, powers (including voting powers) and preferences as determined by the Board in its sole discretion, including the right to elect one or more directors.

#### **Series A Preferred Stock**

Between January 18, 2023 and January 20, 2023, the Company entered into the Purchase Agreements with the Investors, pursuant to which the Company issued and sold to the Investors an aggregate of 835,011 shares of its newly designated Series A Convertible Preferred Stock for issuance price of \$30.00 per share, raising an aggregate of approximately \$25.0 million in cash proceeds. On January 20, 2023, the Company filed a Certificate of Designations of Preferences, Rights and Limitations of the Series A Preferred Stock with the Secretary of State of the State of Delaware (the "Certificate of Designations"), designating shares of Series A Preferred Stock. The shares of Series A Preferred Stock were issued and sold in a private placement exempt from the registration requirements of the Securities Act. The Company does not intend to register the shares of Series A Preferred Stock or the underlying common stock for resale under the Securities Act. The holders of Series A Preferred Stock are entitled to cumulative dividends payable for such share at the rate of 14% per annum, compounding semi-annually to Liquidation Preference on January 1 and July 1 of each year. The Company may also elect to pay any dividend in cash in lieu of accretion to Liquidation Preference if permitted under the agreements and instruments governing its outstanding indebtedness at such time. After payment of the cumulative dividend, including by way of accretion to the Liquidation Preference, any additional dividends declared or paid shall be distributed among the holders of Preferred Stock and common stock then outstanding pro rata based on the number of shares of common stock

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

then held by each holder (assuming conversion of all such Preferred Stock into common stock at the then-effective conversion price).

**Liquidation Preference**

The Liquidation Preference per share of Preferred Stock was initially equal to \$30.00, the original issue price per share. On July 1, 2023, the Company's Series A Preferred Stock holders received dividends paid-in-kind as an increase in Liquidation Preference, thereby increasing the Liquidation Preference per share to approximately \$31.90. Additionally, as of September 30, 2023, the Series A Preferred Stock had accrued additional dividends since the last dividend payment date which has the effect of increasing the Liquidation Preference to approximately \$33.01.

**Redemption**

The Series A Preferred Stock is not mandatorily redeemable.

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company or in the event of any Deemed Liquidation Event (as defined below), the holders of the Series A Preferred Stock will be entitled to receive, prior and in preference to any distribution of the proceeds of the transaction or any of the assets of the Company to holders of the common stock, an amount per share equal to the greater of (i) two and a half times (2.5x) the Liquidation Preference (including any accrued and unpaid dividends since the last dividend payment date) or (ii) the amount as would have been payable had the Series A Preferred Stock been converted into common stock.

A Deemed Liquidation Event includes (i) a merger or acquisition of the Company in which 50% or less of the voting securities of the surviving entity are no longer held by the shareholders of the Company immediately prior to such transaction or (ii) a sale, lease, transfer, exclusive license, or other disposal of all or substantially all of the Company's assets. If the Company is not liquidated within 90 days of a Deemed Liquidation Event, the holders of the Series A Preferred Stock will have the option to require the redemption of the Preferred Stock to the extent the Company has sufficient available proceeds to do so. The Company determined that a Deemed Liquidation Event can only occur with the approval of the board of directors, and therefore the exercise of this contingent redemption feature is within the control of the Company and the Investors are not in control of the Company. Therefore, the Series A Preferred Stock is not classified as redeemable equity within the Company's consolidated balance sheet and consolidated statements of redeemable convertible preferred stock and stockholders' equity (deficit).

**Conversion**

Each share of Series A Preferred Stock is convertible, at the option of the holder, into such number of shares of Class A Common Stock equal to the Liquidation Preference per share at the time of conversion divided by \$1.00 (the "Conversion Price"). In addition, each share of Series A Preferred Stock will automatically convert into shares of Class A Common Stock at the Conversion Price on or after January 20, 2024 if and when the daily volume-weighted average closing price per share of Class A Common Stock is at least 2.5 times the Conversion Price for each of any 90 trading days during any 120 consecutive trading day period, which 120-trading day period may commence (but may not end) prior to January 20, 2024. During the three and nine months ended September 30, 2023, some Investors optionally converted 353,338 shares of preferred stock into 11,375,090 shares of Class A Common Stock. The conversion was pursuant to the original terms of the agreement and therefore the carrying value of Series A Preferred Stock was converted into Class A Common Stock with no gain or loss upon conversion.

**Voting Rights**

The Investors do not have voting rights, except with respect to certain protective provisions and as required by the Delaware General Corporation Law. However, as long as the Series A Preferred Stock are outstanding, the Company may not take certain actions that may materially and adversely impact the powers, preferences, or rights of the Investors without the consent of at least a majority of the Investors.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

**NOTE 11. COMMON STOCK**

The Company had 250,030,433 shares of Legacy SoundHound common stock authorized for issuance prior to the closing of the Business Combination.

On April 26, 2022, following the Business Combination and pursuant to the Company's second amended and restated certificate of incorporation, the Company is authorized to issue 500,000,000 shares of capital stock, consisting of (a) 455,000,000 shares of Class A Common Stock with a par value of \$0.0001 per share, (b) 44,000,000 shares of Class B Common Stock with a par value of \$0.0001 per share, and (c) 1,000,000 shares of preferred stock with a par value of \$0.0001 per share. The outstanding shares of the Company's common stock are fully paid and non-assessable.

As a result of the Business Combination, 73,561,334 shares of Legacy SoundHound common stock, along with 106,949,326 shares of Legacy SoundHound preferred stock, were converted into 180,510,660 shares of the Company's common stock, consisting of 140,114,060 shares of Class A Common Stock and 40,396,600 shares of the Company's Class B Common Stock. On all matters to be voted upon, subject to the rights of any holders of any series of preferred stock, holders of shares of Class A Common Stock and Class B Common Stock will vote together as a single class on all matters submitted to the stockholders for their vote or approval. Holders of Class A Common Stock are entitled to one vote per share on all matters submitted to the stockholders for their vote or approval. Holders of Class B Common Stock are entitled to ten votes per share on all matters submitted to stockholders for their vote or approval.

Each share of Class B Common Stock shall automatically convert into one fully paid and nonassessable share of Class A Common Stock. Shares of Class B Common Stock will be convertible into shares of Class A Common Stock and will be automatically convert into shares of Class A Common Stock upon the occurrence of certain future events, generally including transfers, subject to limited exceptions set forth in the amended charter. The conversion of Class B Common Stock to Class A Common Stock will have the effect, over time, of increasing the relative voting power of those holders of Class B Common Stock who retain their shares in the long term. As a result, it is possible that one or more of the persons or entities holding our Class B Common Stock could gain significant voting control as other holders of Class B Common Stock sell or otherwise convert their shares into Class A Common Stock.

**Equity Line of Credit ("ELOC")**

On August 16, 2022, the Company entered into a common stock purchase agreement ("Common Stock Purchase Agreement") and related registration rights agreement (the "CFPI Registration Rights Agreement") with CF Principal Investments LLC (the "Counterparty"). Pursuant to the Common Stock Purchase Agreement, the Company had the right, but not the obligation, to direct the Counterparty to purchase up to 25,000,000 shares of Class A Common Stock, subject to certain limitations and conditions as described below (the "ELOC Program") at a purchase price equal to 97% of the volume weighted average stock price for a given purchase date. In connection with the execution of the Common Stock Purchase Agreement and the side letter on February 14, 2023, the Company issued 250,000 shares of Common Stock (the "Initial Commitment Shares"), and additional cash commitment fee of \$0.3 million.

The Company controlled the timing and amount of any sales to the Counterparty, which depended on a variety of factors including, among other things, market conditions, the trading price of the Company's common stock, and determinations by the Company as to appropriate sources of funding for its business and operations. However, the Counterparty's obligation to purchase shares is subject to certain conditions, including the daily trading volume of the Company's stock. In all instances, the Company may not sell shares of its common stock under the Purchase Agreement if it would result in the Counterparty and its affiliate beneficially owning more than 4.99% of its outstanding voting power or shares of common stock at any one point in time, or the aggregation number of shares of common stock would not exceed 39,365,804 shares of common stock representing 19.99% of the voting power or number of shares of common stock.

The Company evaluated the Common Stock Purchase Agreement with the Counterparty and determined that it was not indexed to the Company's own common stock and, therefore, should be accounted for as a derivative instrument at fair value with changes in fair value as other income (expense), net in the period in which they occur. Accordingly, the Company recorded a derivative liability with an initial fair value of \$1.1 million based on the upfront commitment fee in the form of proceeds from future issuance of commitment shares to the Counterparty plus certain fees and expenses as

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

specified in the Purchase Agreement. Subsequent changes in the fair value of the derivative liability were dependent upon, among other things, changes in the closing share price of the Company's common stock, the quantity and purchase price of shares purchased by the Counterparty during the reporting period and the cost of raising other forms of capital.

The Company recorded changes in the fair value of the derivative liability associated with the ELOC of \$1.1 and \$1.9 million, respectively, for the nine months ended September 30, 2022 and 2023 and \$1.1 million and zero, respectively, for the three months ended September 30, 2022 and 2023 as other income (expense), net on its condensed consolidated statements of operations and comprehensive loss. The Company incurred third-party costs of zero and \$0.2 million, respectively, related to the execution of the Common Stock Purchase Agreement which were recorded as general and administrative expenses in the condensed consolidated statements of operations and comprehensive loss for the three and nine months ended September 30, 2023. Refer to Note 2 for information on the fair value of the derivative liability.

During the six-month period ended June 30, 2023, the Company sold the entirety of the 25.0 million shares under the ELOC Program for aggregate proceeds of approximately \$71.7 million, with the volume weighted average stock price of shares purchased by the Counterparty ranging from \$1.75 to \$4.26 per share.

**Sales Agreement**

On July 28, 2023, the Company entered into a Controlled Equity Offering Sales Agreement (the "Sales Agreement") with Cantor Fitzgerald & Co., H.C. Wainwright & Co., LLC, and D.A. Davidson & Co. (each a "Sales Agent" and collectively, the "Sales Agents"), pursuant to which the Company may offer and sell up to \$150,000,000 of shares of our Class A common stock from time to time through or to the Sales Agents acting as agent or principal. Sales of our Class A common stock, if any, under the Sales Agreement will be made at market prices by any method that is deemed to be an "at the market offering" as defined in Rule 415 under the Securities Act. We will pay the Sales Agents commission for their services in acting as agent in the sale of our Class A common stock. The Sales Agents are entitled to aggregate compensation at a fixed commission rate of 2.5% of the gross sales price per share sold under the Sales Agreement. We have also agreed to reimburse the Sales Agents for certain specified expenses, including the reasonable and documented fees and disbursements of its legal counsel in an amount not to exceed \$75,000 in the aggregate in connection with the execution of the Sales Agreement. We have not sold any shares under the ATM Program as of the date hereof.

**NOTE 12. OTHER INCOME (EXPENSE), NET**

Other income (expense), net on the condensed consolidated statements of operations is comprised of the following for the three and nine months ended September 30, 2023 and 2022 (in thousands):

	<b>Three Months Ended September 30,</b>		<b>Nine Months Ended September 30,</b>	
	<b>2023</b>	<b>2022</b>	<b>2023</b>	<b>2022</b>
Other income (expense), net				
Interest income	\$ 1,204	\$ 186	\$ 2,075	\$ 225
Change in fair value of derivative liability	—	—	—	(606)
Loss on change in fair value of ELOC program	—	(1,075)	(1,901)	(1,075)
Other income (expense), net	132	(70)	(476)	(337)
<b>Total other income (expense), net</b>	<b>\$ 1,336</b>	<b>\$ (959)</b>	<b>\$ (302)</b>	<b>\$ (1,793)</b>

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

**NOTE 13. NET LOSS PER SHARE**

The following table presents the calculation of basic and diluted net loss per share attributable to common stockholders for the three and nine months ended September 30, 2023 and 2022:

	<b>Three Months Ended September 30,</b>		<b>Nine Months Ended September 30,</b>	
	<b>2023</b>	<b>2022</b>	<b>2023</b>	<b>2022</b>
Numerator:				
Net loss	\$ (20,197)	\$ (30,061)	\$ (70,934)	\$ (85,832)
Less: Cumulative dividends attributable to Series A Preferred Stock	647	—	2,206	—
Net loss attributable to SoundHound common shareholders (in thousands)	\$ (20,844)	\$ (30,061)	\$ (73,140)	\$ (85,832)
Denominator:				
Weighted average shares outstanding – basic and dilutive	242,022,268	197,006,980	222,760,880	143,338,517
Basic and diluted net loss per share	\$ (0.09)	\$ (0.15)	\$ (0.33)	\$ (0.60)

For the three and nine months ended September 30, 2023 and 2022, the diluted net loss per share is equal to the basic net loss per share as the effect of potentially dilutive securities would have been antidilutive.

The following table summarizes the outstanding shares of potentially dilutive securities that were excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive for the three and nine months ended September 30, 2023 and 2022:

	<b>As of September 30,</b>	
	<b>2023</b>	<b>2022</b>
Stock-based awards	36,129,323	42,052,096
Series A Preferred Stock	15,897,990	—
Common stock warrants	6,967,532	3,665,996
Total	58,994,845	45,718,092

**NOTE 14. INCOME TAXES**

The tax expense and the effective tax rate were as follows (in thousands):

	<b>Three Months Ended September 30,</b>		<b>Nine Months Ended September 30,</b>	
	<b>2023</b>	<b>2022</b>	<b>2023</b>	<b>2022</b>
Loss before income taxes	\$ (18,636)	\$ (29,197)	\$ (68,627)	\$ (84,227)
Income tax expense	1,561	864	2,307	1,605
Effective tax rate	(8.38)%	(2.96)%	(3.36)%	(1.91)%

The Company's recorded effective tax rate differs from the U.S. statutory rate primarily due to an increase in the domestic valuation allowance caused by tax losses, foreign withholding taxes and foreign tax rate differentials from the U.S. domestic statutory tax rate.

**SOUNDHOUND AI, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
*(Unaudited)*

**NOTE 15. RELATED PARTY TRANSACTIONS**

The Company entered into revenue contracts to perform professional services for certain companies who are also investors in the Company. These companies are holders of the Company's Class A Common Stock. As a result of the Business Combination during the second quarter of 2022, each company's ownership interest in the Company was reduced to less than 5%. Consequently, considering all aspects of our relationships with the companies, as of June 30, 2022, the Company no longer considers the companies related parties. During the three and six months ended June 30, 2022, the Company recognized revenue from the companies of \$3.0 million and \$5.2 million, respectively.

On January 20, 2023, our Chief Financial Officer and one of our directors each entered into Purchase Agreements, purchasing 3,334 shares of Series A Preferred Stock each for a total purchase price of \$100,000 each.

**NOTE 16. REVISION OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS**

In connection with the preparation of its condensed consolidated financial statements for the three and nine months ended September 30, 2023, the Company identified immaterial prior period errors related to following: 1) accounting for the ELOC as a derivative instrument; 2) classification of Lender Fees and allocation of the warrants in connection with the Term Loan; and 3) the incorrect recording of in-kind dividends associated with the Company's Series A Preferred Stock. The identified errors were included in the Company's previously issued condensed consolidated financial statements as of and for the three and nine months ended September 30, 2022, annual consolidated financial statements as of and for the year ended December 31, 2022, and quarterly condensed consolidated financial statements for the three months ended March 31, 2023 and the three and six months ended June 30, 2023.

In accordance with SEC Staff Accounting Bulletin No. 99, "Materiality," and SEC Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements;" the Company evaluated the errors and determined that the related impacts were not material to its condensed consolidated financial statements for the prior year periods when they occurred, but the Company determined it would be appropriate to correct the errors in the current period in the Company's consolidated statements of operations and comprehensive loss, consolidated balance sheets, consolidated statements of cash flows or consolidated statements of redeemable convertible preferred stock and stockholders' deficit for any periods impacted.

The Company has revised the previously issued consolidated statements of operations and comprehensive loss, consolidated balance sheets, consolidated statements of cash flows and redeemable convertible preferred stock and stockholders' deficit tables as of and for the year ended December 31, 2022, as of and for the three and nine months ended September 30, 2022, as of and for the three months ended March 31, 2023, and as of and for the three and six months ended June 30, 2023 to correct for such errors. All relevant prior period amounts affected by these revisions have been corrected in the notes in this Form 10-Q.

The following tables reflect the impact of these revisions on the Company's condensed consolidated financial statements as of and for the three and six months ended June 30, 2023 (*dollars in thousands, except per share amounts*):

## **Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.**

*The following discussion and analysis of the financial condition and results of operations of SoundHound should be read together with our unaudited interim condensed consolidated financial statements as of September 30, 2023 and for the three and nine months ended September 30, 2023 and 2022, together with related notes thereto, and our audited financial statements included in Form 10-K, which was filed with the SEC on March 28, 2023. Some of the information contained in this discussion and analysis or set forth elsewhere in this report, including information with respect to SoundHound’s plans and strategy for its business and related financing, includes forward-looking statements that involve risks and uncertainties. As a result of many factors, including those factors set forth in the “Risk Factors” and “Cautionary Statement Regarding Forward Looking Statements” section of this report, our actual results could differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis. Unless otherwise indicated or the context otherwise requires, references in this section to “SoundHound,” “we,” “us,” “our” and other similar terms refer to SoundHound AI, Inc.*

*The Company has revised the previously issued consolidated statements of operations and comprehensive loss, consolidated balance sheets, consolidated statements of cash flows and redeemable convertible preferred stock and stockholders’ deficit tables as of and for the year ended December 31, 2022, as of and for the three and nine months ended September 30, 2022, as of and for the three months ended March 31, 2023, and as of and for the three and six months ended June 30, 2023 to correct for such errors. All relevant prior period amounts affected by these revisions have been corrected in the Management’s Discussion and Analysis of Financial Condition and Results of Operation in this Form 10-Q.*

### **Company Overview**

We are a global leader in conversational intelligence, offering independent Voice AI solutions that enable businesses to deliver high-quality conversational experiences to their customers. Built on proprietary technology, SoundHound’s voice AI delivers best-in-class speed and accuracy in numerous languages to product creators across automotive, TV, and IoT, and to customer service industries via groundbreaking AI-driven products like Smart Answering, Smart Ordering, and Dynamic Interaction™, a real-time, multimodal customer service interface. Along with SoundHound Chat AI, a powerful voice assistant with integrated Generative AI, SoundHound powers millions of products and services, and processes billions of interactions each year for world class businesses.

We believe voice-enabled conversational user interface is a more natural interface for nearly all use cases, and product creators should have the ability to design, customize, differentiate, innovate and monetize the interface to their own product, as opposed to outsourcing it to a third-party assistant. For example, using SoundHound, businesses can voice-enable their products so consumers can say things like, “Turn off the air conditioning and lower the windows,” while in their cars, “Find romantic comedies released in the last year,” while streaming on their TV and even place food orders before arriving at a restaurant by talking to their cars, TVs or other IoT devices. Additionally, SoundHound’s technology can address complex user queries such as, “Show me all restaurants within half a mile of the Space Needle that are open past 9pm on Wednesdays and have outdoor seating,” and follow-on qualifications such as “Okay, don’t show me anything with less than 3 stars or fast food.”

The SoundHound developer platform, Houndify, is an open-access platform that allows developers to leverage SoundHound’s Voice AI technology and a library of over 100 content domains, including commonly used domains for points of interest, weather, flight status, sports and more. SoundHound’s Collective AI is an architecture for connecting domain knowledge that encourages collaboration and contribution among developers. The architecture is based on proprietary software engineering technology, CaiLAN (Conversational AI Language), and machine learning technology, CaiNET (Conversational AI Network) to ensure fast, accurate and appropriate responses.

Our market position is strengthened by the technical barriers to entry in the Voice AI space, which tend to discourage new market participants. Furthermore, our technology is backed by significant investments in intellectual property, with over 120 patents granted and over 140 patents pending, spanning multiple fields including speech recognition, natural language understanding, machine learning, monetization and more. We have achieved this critical momentum in part thanks to a long-tenured leadership team with deep expertise and proven ability to attract and retain talent. We believe that SoundHound has extensive technical expertise and a proven track record of innovation and value creation for us to continue to attract customers in the growing market for Voice AI transactions, which is estimated to grow to \$160 billion per year by 2026.

We believe that SoundHound is well-positioned to fill the growing void and demand for an independent Voice AI platform. The Voice AI offerings from big tech companies are primarily an extension of their more core services and offerings. Rather than strengthening a customer's product, it can take over the entire experience, thus disintermediating the company's brand, users and data. As a result, brands relying on big tech mostly lose their ability to innovate, differentiate and customize. In some cases, these providers even compete with the products they support, making them increasingly less attractive as a choice for a voice interface.

The alternative options are generally legacy vendors tending to use dated technologies at a high price. Furthermore, many of these technologies still require significant effort by the product creators to turn them into solutions that can compete with the quality of the big tech offering, which in many cases is not practical. Due to the high barrier to entry in Voice AI, there are not many independent players.

This creates a great opportunity for SoundHound: we believe that we provide disruptive technologies that are superior to the alternatives, with better terms, allowing customers to maintain their brand, control the user experience, get access to the data and define their own privacy policies, while being able to customize, differentiate, innovate and monetize.

When it comes to criteria for adoption, our goal is to win on every dimension. The first two criteria customers typically consider are technology and brand control. We strive to provide our customers with the best technology, and we provide a white label solution giving our customers control of their brands. In some industries you may have to choose between technology and brand control. In our case, we offer our customers the best of both, we enable them to offer disruptive technologies to their users while maintaining control of their brand and user experience.

With our disruptive monetization strategy, we also provide an additional path to monetization for our customer base. By choosing our platform, product creators can generate additional revenue while making their product better using Voice AI, providing further incentive to choose our platform.

We believe that we offer a superior ecosystem, benefiting from our Collective AI product architecture along with offering customers definable privacy controls, which are becoming increasingly important in the industry of Voice AI. Additionally, there is no conflict of interest between us and our partners and customers as we do not compete with them (as some other Voice AI vendors do). We also offer edge and hybrid solutions. This means our technology can optionally run without a cloud connection for increased flexibility and privacy. Our focus is on delivering the most advanced Voice AI in the world and thus allowing our partners to differentiate and innovate their overall experiences for their brands.

We strongly believe that product creators know their product and users best. The idea of a single third-party assistant taking over their product is not reflective of our anticipated future. We envision that every product will have its own identity, and they will have Voice AI customized in different ways. They can each tap into a single Collective AI to access the ever-growing set of domains, but the product creators can innovate on top of Collective AI and create value for the end users in their own way. This is the future that we are focusing on enabling.

When a product is voice enabled, we see three stages of integration and value propositions. The first stage is to enable the core use cases of the product. For example, the product could be a TV, a coffee machine, a car, a wearable device, a robot, a smart speaker or an appliance, and with your voice you can control the functionality of the device and the product. On a TV, you can ask it to change the channel, increase the volume, rewind by 30 seconds, search for movies and even add personalization by adding a TV show to your favorites. Note that this is different from adding a third-party voice assistant to the product. Our view is that every product needs to have an interface, and voice-AI is a natural and compelling interface that unlocks new use cases and potential. Consider just the simple example of rewinding or fast forwarding by a specific duration. That is a command that can be done with voice within a few seconds, but it can take many steps to do using alternative interfaces such as a remote control or a companion app.

Once the core features of a product are voice-enabled, it can be further enhanced in the second stage of integration: the addition of third-party content and domains. SoundHound has extensive partnerships with content providers and, through these partnerships, can fulfill many needs of our customers. For example, your TV, car or even a coffee machine can answer questions about weather, sports scores, stock prices or flight status, and even search for local businesses. The addition of these public domains further enhances the value proposition of the product.

Finally, as the third step, you enter the world of monetization where you can add features that deliver value to the end user, and also generate revenues that we share with the product creators. To summarize with an example, imagine walking

up to your coffee machine and asking for a triple shot extra hot latte. While you are waiting for your drink, you can ask for weather and sports scores, and if you desire, you can even order bagels from your favorite nearby bakery.

There are three pillars to our revenue model. The first pillar is Product Royalties, where we voice enable a product and the product creator pays us a royalty based on volume, usage or duration. SoundHound collects royalties when Houndify is placed in a car, smart speaker or an appliance, for example.

The second pillar is Service Subscription. This is when, for example, SoundHound enables customer service or food ordering for restaurants or content management, appointments and voice commerce. And, for that, we generate subscription revenue from the service providers. Pillars one and two can grow independently and they are proven, established business models.

The third pillar creates a monetization ecosystem that brings the services from pillar two to the products in pillar one. When the users of a voice-enabled product in pillar one access the voice-enabled services of pillar two, these services generate new leads and transactions. SoundHound generates monetization revenue from the services for generating these leads and transactions, and we will share the revenue with the product creators of pillar one. For example, when the driver of a voice-enabled car places an order to a restaurant that is also voice enabled, we will have unlocked a seamless transaction. Accordingly, the restaurant will pay us for that order, and we will share that revenue with the product creator or the car manufacturer. In this example, each party receives value in the ecosystem. The restaurant is happy because they generated a new lead and booked a sale. The user is happy because they have received value through a natural ordering process, simply by speaking to their car. And the car manufacturer is happy because they delivered value to the end user and generated additional revenue from the usage of their product. During the periods presented in the condensed consolidated financial statements, we have not generated revenue from leads and transactions on voice-enabled products from voice-enabled services other than from the SoundHound music identification app. Going forward, SoundHound expects monetization revenue to be generated through a combination of advertising revenue from the music identification app and from leads and transactions on voice-enabled products from voice-enabled services.

We expect this disruptive, three-pillar business model will create a monetization flywheel; as more products integrate into our platform, more users will use it and more services will choose to integrate as well. This creates even more usage, and results in a flow of revenue share to product creators, which further encourages even greater adoption and integration with our platform and the cycle will perpetually continue and expand. This ecosystem increases adoption and increases our addressable market. All three pillars contribute to our revenues today in 2023. While the majority of the contribution is currently from our first pillar of royalties, over time, the subscription and monetization portions are expected to grow and make a bigger contribution to our overall revenue.

#### **Known Trends, Demands, Commitments, Events or Uncertainties Impacting Our Business**

SoundHound believes that its performance and future success depend on many factors that present significant opportunities for us but also pose risks and challenges, including the following:

- **Investments in Technology.** Our business model since inception has been to invest significantly in our Houndify platform technology in the form of dedicated research and development. We will continue to invest in the development of our software platform to deliver consumers with continually improving value and delight. Our investments include continuous enhancements to our ASR and NLU models, investments in data to help refine and improve our underlying algorithms, and other costs to attract and retain a world-class technical workforce.
- **Revenue Growth.** Our commercial success, including acceptance and use of our applications, will depend on a number of factors, some of which are beyond our control, such as size of the market opportunity, successful integration with original equipment manufacturers (“OEM”), competition and demand from the public and members of the conversational AI community. Our product offerings have disruptive effects in the ways human interact with computers and we are developing new, innovative economic models that we believe will enhance value to customers, partners and shareholders. For our revenue growth to continue, we will need to invest in sales and marketing to ensure our messaging, capabilities and offerings are well understood and valued by customers. With our primary focus on enterprise customers, we also need to align with enterprise sales cycles, which can be longer than consumer cycles. Additionally, as we build new customer relationships, we continually focus on maintaining and growing our existing relationships through long-term partnerships through significant upfront investment in customer specific engineering projects.

- **Cost of Revenues.** The results of our business will depend in part on our ability to establish and increase our gross margins by scaling our business model and effectively managing our costs to produce our applications. Our revenue will be directly supported by data center investments in technology, both on premise and in the cloud. The associated workloads, along with supporting labor costs, will need to be managed effectively as we scale to improve our margins over time. Our Houndify platform is also powered by a library of over 100 content domains, including commonly used domains for points of interest, weather, flight status, sports and more.
- **Seasonality.** Our ability to accurately forecast demand for our technology could be negatively affected by many factors, including seasonal demand. We anticipate that we will experience fluctuations in customer and user demand based on seasonality. Given that we address markets across several different industry verticals, the associated overall seasonality impact to us may not be consistent year-to-year.
- **Development of International Markets.** We have rapidly expanded our capabilities and global reach. We have globalized our solution from 1 to 25 languages. We view opportunities for conversational Voice AI to be global in reach, and we expect our growth to be fueled across multiple geographies.
- **Industry Risks.** The military conflict between Russia and Ukraine and the Israel-Hamas war have had an adverse impact on the global economy and financial markets. Although our business has not been materially impacted by the Russia-Ukraine conflict or the Israel-Hamas war, it is impossible to predict the extent to which our operations, or those of our customers' suppliers and manufacturers, will be impacted in the short and long term, or the ways in which the conflicts may impact our business. The extent and duration of the military action, sanctions and resulting market disruptions are impossible to predict but could be substantial. Further, inflation has risen significantly worldwide and the United States has recently experienced historically high levels of inflation. This inflation and government efforts to combat inflation, such as recent and future significant increases to benchmark interest rates and other related monetary policies, have and could continue to increase market volatility and have an adverse effect on the domestic and international financial markets and general economic conditions.

### **Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements were prepared in accordance with U.S. GAAP for the three and nine months ended September 30, 2023 and 2022.

### **Components of Our Results of Operations**

#### **Revenues**

SoundHound generates revenues through: (1) "Product Royalties," meaning royalties from voice-enabled products which are driven by volume, usage or life of applicable products and are affected by number of devices, users and units of usage time, (2) "Service Subscriptions," meaning subscription revenues, derived from monthly fees based on usage-based revenue, revenue per query or revenue per user, and (3) "Monetization," meaning revenues generated from focused ad targeting to users of products and services that employ our technologies. Currently, our monetization revenue is derived from our music identification application primarily in the form of ad impression revenue — revenue generated when an ad is shown in our music identification app — and, to a lesser extent, affiliate revenue for referrals to music stores for content sales and downloads of our premium music application.

"Houndified Products," meaning products of our customers that employ SoundHound technology, and "Houndified Services," meaning services provided to customers related to SoundHound technology, provide our customers with access to our Houndify platform over a contractual period without taking possession of the software. This generally includes revenues derived from up-front services ("professional services") that develop and customize the Houndify platform to fit customers' specific needs. These professional services are included in both our Product Royalties and Service Subscriptions revenues. Non-distinct professional services are recognized over the contractual life of the contract, whereas revenues from distinct professional services are recognized as the services are performed or when the services are complete depending on the arrangement.

We have and may continue to experience volatility for our remaining performance obligations and deferred revenue as a result of the timing for completing our performance obligations. We had remaining performance obligations in the amount of \$13.9 million as of September 30, 2023, consisting of both billed and unbilled consideration. Deferred revenue consists of billings or payments received in advance of revenue being recognized and can fluctuate with changes in billing

frequency and other factors. As a result of these factors, as well as our mix of revenue streams and billing frequencies, we do not believe that changes in our remaining performance obligations and deferred revenue in a given period are directly correlated with our revenue growth in that period.

We anticipate that we will experience fluctuations in our revenues from quarter-to-quarter due to a variety of factors, including the supply and demand of end user products such as automobiles, the size and success of our sales force and the number of users who are aware of and use our applications. See Note 4 to our unaudited condensed consolidated financial statements included within this report for more information.

### ***Operating Expenses***

We classify our operating expenses into the following four categories, which are cost of revenues, sales and marketing, research and development, and general and administrative. Excluding cost of revenues, each expense category includes overhead, including rent and related occupancy costs, which is allocated based on headcount. We plan to continue investing to support our go-to-market strategies and customer engagement, develop our current and future applications and support our operations as a public company.

#### *Cost of Revenues*

SoundHound's cost of revenues are comprised of direct costs associated directly with SoundHound's revenue streams as described above. This primarily includes costs and depreciation related to hosting for cloud-based services, such as data centers, electricity charges, content fees and certain personnel-related expenses that are directly related to these revenue streams. While our gross margin may continue to fluctuate in the near-term due to revenue contributions from varying product mixes, we expect it will stabilize as we continue to scale our business.

#### *Sales and Marketing*

Sales and marketing expenses consist of personnel-related expenses related costs of the sales and marketing team, promotional campaigns, advertising fees and other marketing related costs. Advertising costs are expensed to sales and marketing when incurred.

#### *Research and Development*

Our research and development expenses are our largest operating expense as we continue to develop our software platforms and produce new technological capabilities.

The costs of these activities consist primarily of personnel-related expenses, third-party consultants and costs associated with technological supplies and materials, along with other direct and allocated expenses such as facility costs, depreciation and other shared expenses. We expense research and development costs in the periods in which they are incurred.

#### *General and Administrative*

General and administrative expenses consist of personnel-related costs, accounting and legal expenses, third-party consulting costs, insurance and allocated overhead including rent, depreciation and utilities.

### ***Interest Expense***

Interest expense consists of stated interest incurred on our outstanding convertible notes and debt during the relevant periods, as well as the amortization of debt discounts and issuance costs over the life of the instruments or a shorter period if a lender can demand payment in the event certain events occur that are outside of the control of the Company.

The issuance of debt instruments with direct transaction costs and the bifurcation of embedded derivatives and warrant instruments has resulted in debt discounts. Direct transaction costs consist of various transaction fees, such as bank and legal fees, that are incurred upon issuance. Overall, the discounts from debt issuance costs result in an increased amount of interest expense over the amortization period.

### Other Income (Expense), Net

Other income (expense), net consists of the change in fair value related to our derivative liability, interest income and other income (expense), net.

### Provision for Income Taxes

Income tax expense includes federal, state and foreign taxes and is based on reported income before income taxes. We are in a cumulative loss position for tax purposes based on historical earnings. As of December 31, 2022, the Company had net operating loss carry forwards of approximately \$344.6 million and \$106.9 million available to reduce future taxable income, if any, for both federal and state income tax purposes, respectively. The federal and state net operating loss carry forwards will start to expire in 2025 and 2028, respectively, with the exception of \$256.0 million in federal net operating loss carryforwards, which can be carried forward indefinitely.

The Company also had federal and state research and development credit carry forwards of approximately \$11.4 million and \$9.1 million, respectively, at December 31, 2022. The federal credits will expire starting in 2029 if not utilized. State research and development tax credits can be carried forward indefinitely.

Under Sections 382 and 383 of the Internal Revenue Code of 1986 and similar state tax laws, utilization of net operating loss carryforwards and tax credits may be subject to annual limitations due to certain ownership changes. The Company's net operating loss carryforwards and tax credits could expire before utilization if subject to annual limitations.

### Results of Operations

The following tables set forth the significant components of our results of operations for the three and nine months ended September 30, 2023 and 2022 (\$ in thousands):

	Three Months Ended September 30,		Change	
	2023	2022	\$	%

Total revenues increased by \$2.1 million, or 19%, in the three months ended September 30, 2023 compared to the same period in 2022. The increase was primarily attributable to an increase in product royalty revenue in connection with royalty increases from customers in Korea and professional services completed for a customer in Turkey. The increase was partially offset by a decrease in product royalty revenue due to a contract modification with a large automotive company in Germany during the three months ended September 30, 2023. In the three months ended September 30, 2023 and 2022, licensing revenues of \$5.5 million and \$5.3 million, respectively, were recognized for the delivered Houndify Edge solution related to minimum guarantee units to be utilized over the life of the contract and resulted in a corresponding increase in our Contract assets balance.

Total revenues increased by \$7.1 million, or 33%, in the nine months ended September 30, 2023 compared to the same period in 2022. The increase was primarily attributable to an increase in product royalty revenue in connection with the contract modification of a customer in Germany and royalty increases from customers in Korea. The increase was partially offset by a decrease in product royalty revenue due to a distinct customization service sold to a large automotive company in France during the nine months ended September 30, 2022.

In June 2023, the Company and a customer in Germany finalized an agreement to modify the scope of an existing hosting services contract without changing the contract price. This modification involved the addition of new professional services in lieu of a tail support obligation beyond the contractual period ending on December 31, 2023. On the modification date, the estimated remaining transaction price including the tail support fee of \$1.9 million that was scheduled to be recognized after 2023, was reallocated to the remaining performance obligations and will be fully recognized as revenue in 2023 either at a point in time or over time depending on the nature of each performance obligation.

### Cost of Revenues

Cost of revenues increased by \$1.0 million, or 39%, in the three months ended September 30, 2023 compared to the same period in 2022. The increase was primarily related to increased revenue during the three months ended September 30, 2023 and partially offset by incurring additional data center and hosting costs due to system migrations in the three months ended September 30, 2022 in order to support our revenue growth. Gross margin decreased to 73% during the three months ended September 30, 2023 from 77% during the same period in 2022 largely due to elevated margins recognized on Houndify Edge licensing revenue during the three months ended September 30, 2022.

## [Table of Contents](#)

Cost of revenues increased by \$0.6 million, or 8%, in the nine months ended September 30, 2023 compared to the same period in 2022. The increase was primarily related to increased revenue during the nine months ended September 30, 2023 and partially offset by incurring additional data center and hosting costs due to system migrations in the nine months ended September 30, 2022 in order to support our revenue growth. Gross margin increased to 74% during the nine months ended September 30, 2023 from 68% during the same period in 2022 as our revenue continues to scale and we begin to benefit from efficiencies related to our data center and hosting migrations. The increase in gross margin during the nine months ended September 30, 2023 was partially offset by elevated margins recognized on Houndify Edge licensing revenue during the nine months ended September 30, 2022.

### ***Sales and Marketing***

Sales and marketing expenses decreased by \$2.2 million, or 33%, in the three months ended September 30, 2023 compared to the same period in 2022. The decrease during the three months ended September 30, 2023 was primarily due to our restructuring efforts as we reduced sales and marketing headcount by approximately 30% during the first quarter of 2023, which led to reduced compensation and other benefits expense of approximately \$1.6 million in the three months ended September 30, 2023 compared to the same period in 2022.

Sales and marketing expenses increased by \$0.8 million, or 6%, in the nine months ended September 30, 2023 compared to the same period in 2022. The increase during the nine months ended September 30, 2023 was primarily due to increased compensation and other benefits expense of approximately \$0.5 million and increased program spend to support a greater investment in go-to-market strategies and customer engagement and drive growth in our revenue from subscriptions and monetization in the nine months ended September 30, 2023 compared to the same period in 2022.

### ***Research and Development***

Research and development expenses decreased by \$6.5 million, or 34%, in the three months ended September 30, 2023 compared to the same period in 2022. The decrease in research and development expenses was primarily due to our restructuring efforts as we reduced research and development headcount by approximately 40% during the first quarter of 2023, which led to reduced compensation and other benefits expense of approximately \$5.7 million and was accompanied by reduced consulting fees of approximately \$0.7 million in the three months ended September 30, 2023 compared to the same period in 2022.

Research and development expenses decreased by \$16.1 million, or 29%, in the nine months ended September 30, 2023 compared to the same period in 2022. The decrease in research and development expenses was primarily due to our restructuring efforts as we reduced research and development headcount by approximately 40% during the first quarter of 2023, which led to reduced compensation and other benefits expense of approximately \$13.2 million and was accompanied by reduced consulting fees of approximately \$3.0 million in the nine months ended September 30, 2023 compared to the same period in 2022.

### ***General and Administrative***

General and administrative expenses decreased by \$2.7 million, or 28%, in the three months ended September 30, 2023 compared to the same period in 2022. The decrease in general and administrative expenses was primarily due to our restructuring efforts as we reduced general and administrative headcount by approximately 35% during the first quarter of 2023, which led to reduced compensation and other benefits expense of approximately \$2.8 million in the three months ended September 30, 2023 compared to the same period in 2022.

General and administrative expenses decreased by \$2.4 million, or 10%, in the nine months ended September 30, 2023 compared to the same period in 2022. The decrease in general and administrative expenses was primarily due to our restructuring efforts as we reduced general and administrative headcount by approximately 35% during the first quarter of 2023, which led to reduced compensation and other benefits expense of approximately \$2.7 million in the nine months ended September 30, 2023 compared to the same period in 2022.

### ***Restructuring***

Restructuring expense was \$3.8 million in the nine months ended September 30, 2023 as a result of the Restructuring Plan. See "Liquidity and Capital Resources - Restructuring" for additional information.

### Interest Expense

Interest expense increased by \$4.3 million, or 367%, and \$6.4 million, or 112%, in the three and nine months ended September 30, 2023, respectively, compared to the same periods in 2022. The increase in interest expense was primarily attributable to the increased interest rate, balance and amortization of debt issuance costs and discounts on the Term Loan relative to those on the SVB March 2021 Note and SCI June 2021 Note. Additionally, interest expense in the three and nine months ended September 30, 2023 includes a loss on debt extinguishment of \$0.8 million related to the early repayment of the SVB March 2021 Note and SCI June 2021 Note.

### Other Income (Expense), Net

The following tables summarize our other income (expense), net, by type (\$ in thousands):

	Three Months Ended September 30,		Change	
	2023	2022	\$	%
Interest income	\$ 1,204	\$ 186	\$ 1,018	547 %
Loss on change in fair value of ELOC program	—	(1,075)	1,075	*
Other income (expense), net	132	(70)	202	*
Other income (expense), net	\$ 1,336	\$ (959)	\$ 2,295	*

	Nine Months Ended September 30,		Change	
	2023	2022	\$	%
Interest income	\$ 2,075	\$ 225	\$ 1,850	822 %
Change in fair value of derivative liability	—	(606)	606	*
Loss on change in fair value of ELOC program	(1,901)	(1,075)	(826)	77 %

Other expense, net	\$ (302)	\$ (1,793)	\$ 1,491	(83)%

\* Not meaningful

Interest income increased by \$1.0 million, or 547%, and \$1.9 million, or 822%, in the three and nine months ended September 30, 2023, respectively, compared to the same periods in 2022. The increase in interest income was primarily due to additional interest earned on our higher cash balances during the three and nine months ended September 30, 2023. Loss on change in fair value of the ELOC program decreased by \$1.1 million and increased by \$0.8 million, in the three and nine months ended September 30, 2023, respectively, compared to the same periods in 2022, due to settlement of the derivative liability from the issuance of common stock in the respective periods.

### Provision for Income Taxes

The Company's recorded effective tax rate differs from the U.S. statutory rate primarily due to an increase in the domestic valuation allowance caused by tax losses, foreign withholding taxes and foreign tax rate differentials from the U.S. domestic statutory tax rate.

### Liquidity and Capital Resources

Total unrestricted cash and cash equivalents on hand as of September 30, 2023 was \$96.1 million. Although the Company has incurred recurring losses each year since its inception, the Company expects it will be able to fund its operations for at least the next twelve months. The Company may seek funding through additional debt or equity financing arrangements, implement incremental expense reduction measures or a combination thereof to continue financing its operations. The Company's condensed consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates, among other things, the realization of assets and satisfaction of liabilities in the normal course of business.

### **Sales Agreement**

On July 28, 2023, the Company entered into a Controlled Equity Offering Sales Agreement (the “Sales Agreement”) with Cantor Fitzgerald & Co., H.C. Wainwright & Co., LLC, and D.A. Davidson & Co. (each a “Sales Agent” and collectively, the “Sales Agents”), pursuant to which the Company may offer and sell up to \$150,000,000 of shares of our Class A common stock from time to time through or to the Sales Agents acting as agent or principal. Sales of our Class A common stock, if any, under the Sales Agreement will be made at market prices by any method that is deemed to be an “at the market offering” as defined in Rule 415 under the Securities Act. We will pay the Sales Agents commission for their services in acting as agent in the sale of our Class A common stock. The Sales Agents are entitled to aggregate compensation at a fixed commission rate of 2.5% of the gross sales price per share sold under the Sales Agreement. We have also agreed to reimburse the Sales Agents for certain specified expenses, including the reasonable and documented fees and disbursements of its legal counsel in an amount not to exceed \$75,000 in the aggregate in connection with the execution of the Sales Agreement. We have not sold any shares under the ATM Program as of the date hereof.

### **Term Loan**

On April 14, 2023 (the “Term Loan Closing Date”), the Company entered into a Senior Secured Term Loan Credit Agreement (the “Credit Agreement”) with ACP Post Oak Credit II LLC, as Administrative Agent and Collateral Agent for the Lenders (the “Agent”), and the lenders from time to time party thereto (the “Lenders”). The Credit Agreement provides for a term loan facility in an aggregate principal amount of up to \$100.0 million (the “Term Loan”), the entirety of which was funded on the Term Loan Closing Date. The Credit Agreement also permits the Company to request additional commitments of up to \$25.0 million in the aggregate, with funding of such commitments in the sole discretion of the Lenders, under certain circumstances and under the same terms as the Term Loan. On the Term Loan Closing Date, the Company also entered into that certain Guarantee and Collateral Agreement, dated as of April 14, 2023, by and among the Company, the other grantors named therein and the Agent (the “Guarantee and Collateral Agreement”). In addition, the Company is obligated to pay incremental lender fees, beginning on the Closing Date, equal to initially 3.5% of the principal amount of the Term Loans, decreasing to 2.5% after the 18-month anniversary, semi-annually (the “Lender Fees”) to provide a collateral protection insurance policy on behalf of the Lenders. The Lender Fees are effectively additional fees payable to the Lenders as the Lenders are the sole beneficiary of the insurance policy and is therefore being recognized as interest expense over the term of the Term Loan based on the effective interest method.

The Company used the proceeds from the Term Loan to (i) repay outstanding amounts equal to approximately \$30.0 million under the Company’s existing loan facilities, (ii) fund an escrow account on the Term Loan Closing Date in the name of the Agent for an amount equal to the first four interest payments, (iii) pay certain fees and expenses incurred in connection with entering into the Credit Agreement, and (iv) fund the Lender Fee, together with related taxes, with the remaining proceeds to be used to fund growth investments and for general corporate purposes as permitted under the Credit Agreement.

The outstanding principal balance of the Term Loan bears interest at the applicable margin plus, at the Company’s election, either (i) the secured overnight financing rate (“SOFR”) plus 0.15% or (ii) the alternate base rate (“ABR”), which is a per annum rate equal to the greatest of (a) the Prime Rate (as defined in the Credit Agreement), (b) the NYFRB Rate (as defined in the Credit Agreement) plus 0.50% and (c) the Adjustable Rate (as defined in the Credit Agreement) plus 1.00%. The applicable margin under the Credit Agreement is 8.50% per annum with respect to SOFR loans, and 7.50% per annum with respect to ABR loans. As of September 30, 2023, the interest rate was approximately 14.0%.

Subject to certain exceptions as set forth in the Credit Agreement, interest on the Term Loan is payable quarterly in arrears on the last business day of each fiscal quarter. The Term Loan is set to mature on April 14, 2027 (the “Maturity Date”). The Credit Agreement provides for no scheduled principal payments prior to the Maturity Date.

Concurrently with the Company’s entry into the Credit Agreement, the Company used a portion of the proceeds to prepay in full all outstanding obligations under, and terminated, the SCI June 2021 Note and the SVB March 2021 Note. In connection with the SCI June 2021 Note prepayment, the Company paid a total of approximately \$11.7 million, which consisted of (i) the remaining principal amount outstanding of approximately \$11.5 million, (ii) a prepayment premium of approximately \$0.2 million and (iii) a nominal amount for transaction expenses. The Company recorded a loss on debt extinguishment of \$0.4 million related to the early repayment in interest expense in the condensed consolidated statements of operations. In connection with the SVB March 2021 Note prepayment, the Company paid a total of \$18.5 million, which consisted of (i) the remaining principal amount outstanding of \$18.1 million, (ii) a prepayment premium of \$0.3 million, (iii) accrued and unpaid interest of \$0.1 million and (iv) a nominal amount for transaction expenses. The Company

recorded a loss on debt extinguishment of \$0.4 million related to the early repayment in interest expense in the condensed consolidated statements of operations.

### ***Equity Line of Credit (ELOC)***

On August 16, 2022, the Company entered into a common stock purchase agreement (the “Common Stock Purchase Agreement”) and related registration rights agreement (the “CFPI Registration Rights Agreement”) with CF Principal Investments LLC (the “Counterparty”). Pursuant to the Common Stock Purchase Agreement, the Company, has the right to sell to the Counterparty up to the lesser of (i) 25,000,000 shares of Class A Common Stock and (ii) the Exchange Cap (as defined in the Common Stock Purchase Agreement), subject to certain limitations and conditions set forth in the Common Stock Purchase Agreement (the “ELOC Shares”). On February 14, 2023, the Company’s Registration Statement on Form S-1 registering the resale of the ELOC Shares (the “ELOC Registration Statement”) was declared effective. On March 31, 2023, a post-effective amendment to the ELOC Registration Statement was declared effective. The Company has utilized and expects to continue to utilize proceeds from the ELOC for working capital and other general corporate purposes. Through September 30, 2023, the Company had sold the entirety of the 25,000,000 shares under the ELOC program for aggregate proceeds of approximately \$71.7 million.

### ***Series A Preferred Stock***

On or around January 20, 2023, the Company entered into the Purchase Agreements with the Investors, pursuant to which the Company issued and sold to the Investors an aggregate of 835,011 shares of its newly designated Series A Convertible Preferred Stock for an aggregate issue price of approximately \$25.0 million.

### ***Restructuring***

In January 2023, the Company announced a restructuring plan (the “Restructuring Plan”) intended to reduce operating costs, improve operating margins, improve cash flows and accelerate the Company’s path to profitability. The Restructuring Plan included a reduction of the Company’s then-current workforce by approximately 40% or 180 positions globally.

Costs associated with the Restructuring Plan consist of employee severance payments, employee benefits and share-based compensation. The costs associated with the Restructuring Plan were recorded to the restructuring expense line item within our condensed consolidated statements of operations as incurred. During the nine months ended September 30, 2023, we recorded \$3.8 million of restructuring expenses in connection with the Restructuring Plan, of which \$1.4 million were cash payments. The Restructuring Plan was substantially complete as of September 30, 2023.

### ***Business Combination***

As a result of the Business Combination in April 2022, we raised gross proceeds of \$118.4 million including a combination of \$5.4 million in cash held in trust by ATSP (following satisfaction of redemptions by public stockholders), and \$113.0 million in aggregate gross proceeds from PIPE investors. The combined company incurred \$27.7 million of expenses related to the transaction.

### ***Contractual and Other Obligations***

Because we expect to continue investing in software application and development, we enter into various contracts and agreements to increase our availability of capital. Cash that is received through these obligations is used to meet both short and long-term liquidity requirements as discussed above. These requirements generally include funding for the research and development of software, the development of applications that enable voice interaction, marketing programs and personnel-related costs. The primary types of obligations into which we enter include contractual obligations, operating and finance lease obligations and a diversified spread of debt instruments. The Term Loan was our only material debt facility as of September 30, 2023.

## Cash Flows

The following table summarizes our cash flows (\$ in thousands):

	Nine Months Ended September 30,	
	2023	2022
Net cash used in operating activities	\$ (54,395)	\$ (73,605)
Net cash used in investing activities	(334)	(1,188)
Net cash provided by financing activities	155,175	85,613
	<u>\$ 100,446</u>	<u>\$ 10,820</u>

### Cash Flows Used in Operating Activities

Net cash used in operating activities was \$54.4 million during the nine months ended September 30, 2023 compared to \$73.6 million during the nine months ended September 30, 2022. The \$19.2 million decrease in cash used in operating activities was primarily due to our decreased net loss, adjusted for non-cash expenses, including stock-based compensation and depreciation and amortization and changes in operating assets and liabilities.

### Cash Flows Used in Investing Activities

Net cash used in investing activities was \$0.3 million during the nine months ended September 30, 2023 compared to \$1.2 million during the nine months ended September 30, 2022. The \$0.9 million decrease in cash used in investing activities was driven by a reduction in purchases of property and equipment.

### Cash Flows Provided by Financing Activities

Net cash provided by financing activities was \$155.2 million during the nine months ended September 30, 2023 compared to \$85.6 million during the nine months ended September 30, 2022. The \$69.6 million increase in cash provided by financing activities was primarily due to \$85.1 million in net proceeds from the issuance of the Term Loan, \$71.7 million in proceeds from the sales of common stock under the ELOC program, \$24.9 million in net proceeds from the issuance of the Series A Preferred Stock and a \$5.0 million increase in proceeds from the issuance of common stock during the nine months ended September 30, 2023 and was partially offset by \$90.7 million in net proceeds from the Business Combination and PIPE during the nine months ended September 30, 2022 and an increase in payments on our notes payable of \$27.6 million during the nine months ended September 30, 2023.

## Off-Balance Sheet Arrangements

We did not have during the periods presented, and we do not currently have, any off-balance sheet arrangements, as defined in the rules and regulations of the SEC.

## Indemnification Agreements

We enter into standard indemnification arrangements in the ordinary course of business. Pursuant to these arrangements, we indemnify, hold harmless and agree to reimburse the indemnified parties for losses suffered or incurred by the indemnified party, in connection with any trade secret, copyright, patent or other intellectual property infringement claim by any third party with respect to its technology. The term of these indemnification agreements is generally perpetual any time after the execution of the agreement. The maximum potential amount of future payments we could be required to make under these arrangements is not determinable. We have never incurred costs to defend lawsuits or settle claims related to these indemnification agreements. As a result, we believe the fair value of these agreements is minimal.

## Critical Accounting Policies and Significant Management Estimates

Our management's discussion and analysis of our financial condition and results of operations is based on our unaudited condensed consolidated financial statements included elsewhere in this report that have been prepared in accordance with U.S. GAAP. The preparation of these financial statements requires us to make estimates and assumptions

that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported income (loss) generated and expenses incurred during the reporting periods. Our estimates are based on our historical experience and on various other factors that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions and any such differences may be material.

For a discussion of our critical accounting policies, see “Management’s discussion and analysis of financial condition and results of operations” and the notes to the consolidated financial statements included in our Form 10-K, which was filed with the SEC on March 28, 2023.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

Not required for smaller reporting companies.

### **Item 4. Controls and Procedures.**

#### ***Evaluation of Disclosure Controls and Procedures***

Management performed, with the participation of the Chief Executive Officer (CEO) and the Chief Financial Officer (CFO), an evaluation of the effectiveness of the Company’s disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the Exchange Act) as of the end of the period covered by this Quarterly Report. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objective and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company’s disclosure controls and procedures were not effective at the reasonable assurance level as of September 30, 2023 due to the material weaknesses in its internal control over financial reporting described below.

However, after giving full consideration to the material weaknesses described below, and the additional analyses and other procedures management performed to ensure that its condensed consolidated financial statements included in this quarterly report on Form 10-Q were prepared in accordance with U.S. GAAP, the Company’s management has concluded that its condensed consolidated financial statements present fairly, in all material respects, its financial position, results of operations and cash flows for the periods disclosed in conformity with U.S. GAAP.

#### ***Material Weaknesses on Internal Control over Financial Reporting***

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of a company’s annual or interim financial statements may not be prevented or detected on a timely basis. The Company did not design and maintain effective controls in response to the risks of material misstatement. Specifically, changes to existing controls or the implementation of new controls were not sufficient to respond to changes to the risks of material misstatement to financial reporting. This material weakness contributed to the following additional material weaknesses as of September 30, 2023:

- The Company did not design and maintain effective controls to verify appropriate accounting for complex financing transactions.
- The Company did not design and maintain effective controls to verify appropriate segregation of duties, including assessment of incompatible duties, identification of instances where incompatible duties were assigned to an individual, and addressing conflicts on a timely basis.
- The Company did not design and maintain effective controls over certain information technology (IT) general controls over information systems that are relevant to the preparation of the Company’s financial statements. Specifically, the Company did not design and maintain: (i) user access controls to ensure appropriate segregation of duties and to adequately restrict user and privileged access to appropriate personnel; (ii) program change management controls to ensure that program and data changes are identified, tested, authorized and implemented appropriately; and (iii) computer operations controls to ensure that processing and transfer of data, and data backups and recovery are monitored.

The material weaknesses related to controls in response to the risks of material misstatement and complex financing transactions resulted in the revision of the consolidated financial statements as of and for the periods ended September 30, 2022, December 31, 2022, March 31, 2023 and June 30, 2023. The material weaknesses related to segregation of duties and IT general controls did not result in a misstatement to our annual or interim consolidated financial statements. Additionally, the material weaknesses could result in additional misstatements to the annual or interim consolidated financial statements which would result in a material misstatement of the annual or interim consolidated financial statements that would not be prevented or detected.

***Remediation Efforts for the Material Weaknesses***

We are in the process of designing and implementing controls and taking other actions to remediate the material weaknesses described above. Specifically, during the current quarter, we implemented measures designed to improve our internal control over financial reporting to remediate the material weaknesses, including the following:

- Engaging a third party to perform a risk assessment that includes the identification and walkthrough of key business processes and conducting design and operational control testing to address key risks.
- Completing a segregation of duties assessment identifying key conflicts and mitigating controls.
- As of September 2023, the Company has begun implementing a Segregation of Duties automated tool for our Enterprise Resource Planning (ERP) system. We will also design and implement similar controls for the remaining financially relevant applications.
- Designing and implementing controls related to user access reviews and the review of Service Organization Control reports, which cover program change management and computer operations for many of the applications that we rely on for financial reporting.

The material weaknesses will not be considered remediated until management completes the design and implementation of the measures described above, the controls operate for a sufficient period of time, and management has concluded, through testing, that the controls are effective.

***Changes in Internal Control over Financial Reporting***

As described above in the section “Remediation Efforts for the Material Weaknesses,” there were changes in our internal control over financial reporting during the quarter ended September 30, 2023 that have materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## PART II - OTHER INFORMATION

### Item 1. Legal Proceedings.

We are not a party to any material pending legal proceedings, nor are we aware of any pending litigation or legal proceeding against us that would have a material adverse effect upon our results of operations or financial condition.

### Item 1A. Risk Factors.

While not required for smaller reporting companies, the risk factor described below should be considered along with the risk factors disclosed in our Form 10-K, which was filed with the SEC on March 28, 2023. Any of these risk factors could result in a significant or material adverse effect on our results of operations or financial condition. Additional risk factors not presently known to us or that we currently deem immaterial may also impair our business or results of operations.

***The Company has identified material weaknesses in its internal control over financial reporting and may identify additional material weaknesses in the future, which may result in material misstatements of the Company's consolidated financial statements or cause the Company to fail to meet its periodic reporting obligations and the trading price of our stock could be negatively affected.***

Since becoming a public company, our company has been classified as a non-accelerated filer, emerging growth company and smaller reporting company as disclosed on the cover page of this Form 10-Q. On June 30, 2023 (the annual measurement date for SEC filing status), our public float was in excess of \$700 million, and accordingly we will become a large accelerated filer for the year ended December 31, 2023 and will be subject to the requirements of 404(b) of Sarbanes-Oxley Act of 2002 ("SOX") for the year ended December 31, 2023.

We have determined the following material weaknesses exist as of September 30, 2023:

- The Company did not design and maintain effective controls in response to the risks of material misstatement. Specifically, changes to existing controls or the implementation of new controls were not sufficient to respond to changes to the risks of material misstatement to financial reporting. This material weakness contributed to the following additional material weaknesses as of September 30, 2023:
  - The Company did not design and maintain effective controls to verify appropriate accounting for complex financing transactions.
  - The Company did not design and maintain effective controls to verify appropriate segregation of duties, including assessment of incompatible duties, identification of instances where those incompatible duties were assigned to an individual, and addressing conflicts on a timely basis.
  - The Company did not design and maintain effective controls over certain information technology (IT) general controls over information systems that are relevant to the preparation of the Company's financial statements. Specifically, the Company did not design and maintain: (i) user access controls to ensure appropriate segregation of duties and to adequately restrict user and privileged access to appropriate personnel; (ii) program change management controls to ensure that program and data changes are identified, tested, authorized and implemented appropriately; and (iii) computer operations controls to ensure that processing and transfer of data, and data backups and recovery are monitored.

The material weaknesses related to controls in response to the risks of material misstatement and complex financing transactions resulted in the revision of the consolidated financial statements as of and for the periods ended September 30, 2022, December 31, 2022, March 31, 2023 and June 30, 2023. The material weaknesses related to segregation of duties and IT general controls did not result in a misstatement to our annual or interim consolidated financial statements. Additionally, the material weaknesses could result in additional misstatements to the annual or interim consolidated financial statements which would result in a material misstatement of the annual or interim consolidated financial statements that would not be prevented or detected.

Effective internal control over financial reporting is necessary to provide reliable financial reports and to assist in the effective prevention or detection of material misstatements due to error or fraud. Any inability to provide reliable financial reports or prevent or detect material misstatements due to error or fraud could harm our business. We regularly review and update our internal control over financial reporting, disclosure controls and procedures, and corporate governance policies. In addition, we are required under the rules and regulations of the SEC regarding compliance with SOX to report annually on the effectiveness of our internal control over financial reporting. Any system of internal controls, however well designed and operated, is based in part on certain assumptions and can provide only reasonable, not absolute, assurances that the objectives of the system are met. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. Accordingly, a material weakness increases the risk that the financial information we report contains material misstatements.

While we are in the process of addressing our material weaknesses as disclosed herein, elements of our remediation plan can only be accomplished over time and we can offer no assurance that these initiatives will ultimately have the intended effects. Any failure to maintain effective internal control over financial reporting could adversely impact our ability to report our financial results on a timely and accurate basis. If our financial statements are not accurate, investors may not have a complete understanding of our operations or may lose confidence in our reported financial information. Likewise, if our financial statements are not filed on a timely basis as required by the SEC and The NASDAQ Stock Market, we could face severe consequences from those authorities. In either case, it could result in a material adverse effect on our business or have a negative effect on the trading price of our common stock. Further, if we fail to remedy these deficiencies (or any other future deficiencies) or maintain effective internal control over financial reporting, we could be subject to regulatory scrutiny, civil or criminal penalties or shareholder litigation. We can give no assurance that the measures we have taken and plan to take in the future will remediate the material weaknesses identified or that any additional material weaknesses or restatements of our financial statements will not arise in the future due to a failure to implement and maintain adequate internal control over financial reporting or circumvention of those controls.

Further, in the future, if we cannot conclude that we have effective internal control over our financial reporting, or if our independent registered public accounting firm is unable to provide an unqualified opinion regarding the effectiveness of our internal control over financial reporting, investors could lose confidence in the reliability of our financial statements, which could lead to a decline in our stock price.

**Item 2. Unregistered Sales of Equity Securities, Use of Proceeds and Issuer Purchases of Equity Securities.**

There were no sales of equity securities during the period covered by this Quarterly Report that were not either registered under the Securities Act or were not previously reported in a Quarterly Report on Form 10-Q or a Current Report on Form 8-K filed by the Company.

**Item 3. Defaults Upon Senior Securities**

None.

**Item 4. Mine Safety Disclosures**

Not applicable.

**Item 5. Other Information**

None.

**Item 6. Exhibits**

The following exhibits are filed as part of, or incorporated by reference into, this report.

**CERTIFICATION PURSUANT TO RULE 13a-14(a) OF THE  
SECURITIES EXCHANGE ACT OF 1934**

I, Dr. Keyvan Mohajer, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of SoundHound AI, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
